Convalescents Who Have No Appetite

If medicines and tonics cannot bring your appetite back, don't be discouraged. Science has now perfected a food ingredient which often helps restore health, strength and appetite when medicines and tonics fail.

It has been discovered that a most effective way to regain complete health and appetite when one is recovering from illness, is to eat food rich in Vitamin B. Formerly such a diet would include great amounts of spinach and other vegetables which many people dislike. But today, this is no longer necessary. Thousands have found a more palatable way to get the full restoring power of Vitamin B, by using the new food ingredient, Vegex, richest known source of the vitamin.

Merely by having your favorite foods with at least a teaspoonful of Vegex every day, you can get all you need of the precious vitamin which builds the very foundation of normal health and appetite. In this way Vegex has enabled thousands to regain lost vitality and is aiding thousands more to preserve it.

Use Vegex in soups, sauces, gravies or any other way you prefer. It makes your favorite dish a health food. It adds zest and savor that the whole family will enjoy. Try the appetizing broiled steak with Vegex and hot water in one minute. Leading grocers and druggists now carry Vegex. Trial jars 15c. Ask for the Vegex cook book with the famous appetite-building recipes.

REPARATIONS FORCES MASS

Diplomats of Dozen Nations Gather at The Hague

Tackling of World Problems Will Start Today

Application of Young Plan Purpose of Session

THE HAGUE, Aug. 5. (AP)—More than 200 statesmen and diplomats from ten European countries, Japan and the United States are gathered tonight in the largest "village" in Europe preparatory to liquidating the last World War problems. A hundred journalists will chronicle the proceedings.

Hague, with its population of 400,000 still is a village officially because centuries ago it was deprived of official status of the right to call itself "a town." It has remained a village in name after growing to the proportions of one of the great cities of Holland, but in certain customs it still takes the leisurely methods of a village and it also takes great pride in being preferred over larger towns for such important international negotiations as the conference beginning tomorrow.

MEET IN ANCIENT PALACE

The sessions of the government envoys who are gathered for the purpose of applying the Young plan for reparations will be held in the historic palace of the counts of Holland. The edifice contains many art treasures and in modern times serves as the Dutch Senate building.

Henri Janpar, Prime Minister of Belgium, will preside when the conference opens officially at 11 o'clock tomorrow morning. More German arrivals today brought the Reich delegation to seventy, which is the largest representation from any country. The United States is represented by a single official, observed Sir John G. Wilson, first secretary of the American Embassy in Paris.

Premier Briand of France, Foreign Minister Stresemann of Germany and Premier Venizelos are among the leading public men of Europe here for the negotiations. The British delegation is headed by Foreign Secretary Arthur Henderson.

YOUNG PLAN TO FORE

Tomorrow's work is expected to be limited to the entrance of the delegations into a contract and a possible fixing of the order of procedure.

It is assumed the Young plan will be given first place on the agenda since one of its objectives depends the other question that will come before the conference under the agreement arrived at by the powers in Geneva. This question is the evacuation of Allied troops from the Rhineland, where they were stationed under the provisions of the Versailles Treaty.

The countries represented at the conference will be Great Britain, France, Germany, Belgium, Italy and Japan. With Rumania, Poland, Yugoslavia, Greece and Portugal represented only on the question of reparations and with the United States simply as an onlooker.

T. B. VEBLEN EXPIRES IN PALO ALTO

Author Died Saturday But News Was Suppressed as Daughter's Request

PALO ALTO, Aug. 5. (AP)—Thorstein B. Veblen, economist and author, died here Saturday night. Knowledge of his death was withheld until today. Death was attributed to a heart attack.

Veblen died at his Menlo Park home at 75 years of age. He leaves only a daughter, Miss Rebecca Veblen, at whose request an undertaker said he suppressed knowledge of the death of the author and educator for nearly two days.

Known best for his work on "The Theory of the Leisure Class," Veblen had a long and brilliant career. He retired two years ago from the faculty of the New School of Social Research in New York and devoted himself solely to his work of translation from many languages and the writing of essays. He was associate professor of economics at Stanford University from 1908 to 1909.

In 1911 he went to the New School for Social Research in New York. He was managing editor of the Journal of Political Economy from 1896 to 1906.

Summons Issued for Clara Bow's Reported Fiance

PITTSBURGH, Aug. 5. (AP)—A summons for Harry Richman, New York night-club manager and fiancee of Clara Bow, motion-picture actress, was issued in Federal Court today in the suit brought against Richman by Ellen Franks of Pittsburgh. Richman is directed to appear in court the first Monday of September or file an affidavit of defense.

According to papers filed by Miss Franks' attorney, the woman will seek damages for assault and battery. Miss Franks is said to be a dancer, but she is not known in theatrical circles here and could not be found.

Another Florida Bank Suspends

ORLANDO (Fla.) Aug. 5. (AP)—The State Bank of Orlando and Trust Company, capitalized at \$100,000 and said to have been the oldest financial institution in Orange county, failed to open its doors today.

A notice posted on the door said the bank had been closed for the protection of depositors and that it had been placed in the hands of the State Banking Department. L. C. Massey is president of the institution.

ICE MILK IN ICE CREAM'S CAN PANNED

Prosecution Promised for Dealers Deceiving Public With Inferior Product

SACRAMENTO, Aug. 5. (AP)—Vigorous prosecution for the substitution of ice milk for ice cream by dealers is promised by G. H. Becke, director of the State Department of Agriculture.

Ice milk looks and tastes like ice cream and the difference is not readily distinguishable, according to Dr. M. E. McDonald, chief of the State Bureau of Dairy Control. The chief difference, Dr. McDonald said, is that ice milk contains a much smaller percentage of butter fat, which is the expensive ingredient of ice cream.

Dealers who sell ice milk are required to display prominently a sign stating that ice milk is dispensed, and all failures to do so are to result in prosecution, Becke declares.

GAS LINE PERMIT GRANTED

SAN FRANCISCO, Aug. 5. (AP)—Permit to construct a 600-ft. branch natural-gas pipe line from Fresno to connect with the main line at a point near Huron was granted the Pacific Gas and Electric Company today by the State Railroad Commission.

LOST CHEMIST REACHES CAMP

Appearance Ends Hunt of Searching Party

Federal Worker Missing in Glacier Regions

Two Days Spent Without Food or Shelter

SWIM (Or.) Aug. 5. (AP)—Rene D'Urbal, 32 years of age, government chemist, walked into this community late today, tired and hungry after having spent two days in the glacier regions without food or shelter.

D'Urbal, in charge of the blaster rust-control camp near Swim, set out yesterday to take pictures of the glacier. He was to have returned at 8 p.m. When he did not appear during the night, alarm was felt and all available men took the field at 5:30 a.m. today in search of him.

SON OF SCULPTOR DROWNS

DENNIS (Mass.) Aug. 5. (AP)—John Carl Edy, son of a Seattle (Wash.) sculptor connected with the American Museum of Natural History of New York, drowned here while swimming late yesterday. He was pulled ashore, but efforts to revive him failed.

WILBUR ACTS ON ALASKA PARK ROAD

Completion of McKinley Highway to be Speeded by Department Plans

WASHINGTON, Aug. 5. (Exclusive)—Completion of the McKinley Park road through Mount McKinley National Park, from the entrance station on the Alaska Railroad to Copper Mountain, a distance of seventy-three miles, within two years, was assured by action of Secretary Wilbur in authorizing additional work on the project this season. It was announced by the Department of the Interior today.

This road is being constructed by the Alaska Road Commission for the national park service. The road is now open to Sable Pass, Mile 38, and is suitable for motor traffic to Igloo Camp, Mile 34. The additional work authorized by the Secretary provides \$60,000 for opening up and stocking supply bases before winter closes down so that next spring construction can be pushed rapidly.

SPANISH PAPER STARTS

PHOENIX, Aug. 5. (AP)—El Centinela is the name of a new Spanish-English weekly newspaper being established in Phoenix by Prof. Vincent G. Nicoletti, editor and publisher of the monthly magazine, the Defender. Spanish-English Catholic publication.

HATFIELD BEATS "RUSTLER" SUIT

Federal Official Hints at Damage Action

MERCED, Aug. 5. (Exclusive)—U. S. Atty. Hatfield and two other defendants today were cleared of a charge of "cattle rustling" in the court of Justice of the Peace McConnell at Livingston.

Hatfield was accused of having stolen six cows from J. E. Mount, Hilmar farmer, about two years ago. Similarly accused were Floyd S. Stevenson, millionaire landowner of the town bearing his name, and M. C. Gordon, one of Stevenson's employees.

Hatfield intimated that he may sue Mount for damages. "While San Francisco newspapers have printed the story in a jocular vein," said Hatfield, "press wires have carried it in all seriousness all over the country, and I have received many embarrassing telegrams. I feel that my reputation has been damaged."

AUSTRIAN INVENTOR OF GAS MANTLE DIES

VIENNA, Aug. 5. (AP)—Karl Auer, Premier Von Weizsacker, inventor of the incandescent gas mantle, died today at his residence of Weizsacker Castle in Carinthia. Auer was also the inventor of Auer gas lamps and osmium lamps.

SUNFREZE is the better Ice Cream—

The "Quality Dealer" knows ...so should you!

THERE ARE just three things that determine the quality of ice cream—richness, smoothness and flavor.

SUNFREZE Protected Ice Cream is outstanding in these three essential characteristics—so much so that we can say without contradiction that it is a better ice cream. But it takes more than words to produce a better product. Let us give you proof... plenty of it.

SUNFREZE RICHNESS?

...comes from a special formula which requires the careful blending of selected whipping cream, creamy milk, eggs, pure cane sugar and real vanilla. These foods, so necessary to the daily diet, are blended in such well-balanced proportions that we say SUNFREZE is a food vital as sunshine.

SUNFREZE SMOOTHNESS?

...is the outcome of mechanical control in all freezing operations. This control starts at the pasteurizers and the huge, thousand-gallon, glass-lined refrigerated tanks... and ends when the finished product is drawn into containers from the shining battery of hundred-quart freezers. This mechanical control of operations is your assurance of smoothness every day in the year.

SUNFREZE FLAVOR?

...every bit of the finished product has a full-strength vanilla base. That is the secret behind the many tempting SUNFREZE flavors. Even the vanilla is prepared from special formula and aged in oak until mellow.

...and SUNFREZE "Quality Dealers" are willing to pay more for their ice cream because they know it costs more to manufacture. To insure your receiving SUNFREZE in all its original goodness, they have equipped their fountains with mechanical refrigeration.

TESTIMONY?

...One hundred and fifty million servings of SUNFREZE will be enjoyed this year... everybody likes it... from Canada to Mexico and from the Pacific to the Rockies.

...Try SUNFREZE today! Where? At the stores displaying the "Seal of Quality"! The emblem is your guide to the best there is... not only in Ice Cream but in other products, too.

G. B. SHAW GIVES RADICALS JOLT

"We're Bourgeois Socialists," He Tells Independents

"Labor Won Because Others Were So Much Worse"

Sage Admits He Next May Be Rabid Conservative

(Continued from the Chicago Tribune) LONDON, Aug. 5. (Exclusive)—Admitting that he is a "bourgeois Socialist" at 72 years of age but may become a rabid Conservative at 73, George Bernard Shaw, dramatist, handed out some friendly advice to Great Britain's radicals in an address today to the Independent Labor party school at Welwyn.

"I am a bourgeois Socialist and there is not one of you who could possibly be mistaken for anything else," Mr. Shaw exclaimed to his hearers, who were mostly Labor party leaders. "There is not one of you who could be taken for a horrid-headed nut of old, and this is very significant because there is hardly any class which understands the working class less than our class does."

He said described the Communists as "still dreaming and talking a lot of rubbish about the working classes."

OTHERS HOPELESS

"The Labor party is not exactly popular, but is the only party not unpopular. The people voted for Labor because the others were all hopeless," he said.

Shaw warned his young bourgeois

DEATH SENTENCE USED AS WARNING IN PRISON

FRANKFORD (Ky.) Aug. 5. (P)—Gov. Sweeney today signed the death warrant of two convicted murderers and then issued a proclamation, which he ordered read once each week until their execution September 12 in every penitentiary and jail in the State calling attention to the violations of the law which resulted in the sentences.

"May the Lord have mercy upon the souls of these unfortunate men who are about to pay the extreme penalty for their transgressions," was the heading of the proclamation, which intimated of the State penitentiary, reformatory and jails and workhouses are to hear each week.

The condemned men are Carl Ford, convicted of the robbery and murder of Marion A. George, a Louisville merchant, for whose death Charles White of St. Louis already has gone to death, and Ivan Russell of Oldham county, who is charged with having shot and clubbed to death a man and his wife because the woman testified against him in a case in which he had been sent to the Indiana reformatory.

quite clear that he is a "bourgeois Socialist."

"When I was a boy my father forbade me to speak or play with the son of a retail tradesman," he said. "The tradesman's son I was allowed to speak to. I received no instructions in regard to the working people with a weekly wage, because it never entered my father's head that it could be possible that I would dream of playing with people of that kind."

Auto Trapped in Quicksand

WINDLOW, Aug. 5. (P)—An automobile party of tourists sank almost out of sight today in Cottonwood Wash, six miles east of here, where a bridge approach went off several days ago and a Yellowway bus was lost in the raging stream.

The tourists' car went into quicksand at a point where the stream was being forced pending completion of a new bridge. The occupants got wet, but scrambled safely ashore.

CRANE CHARGED WITH MURDER

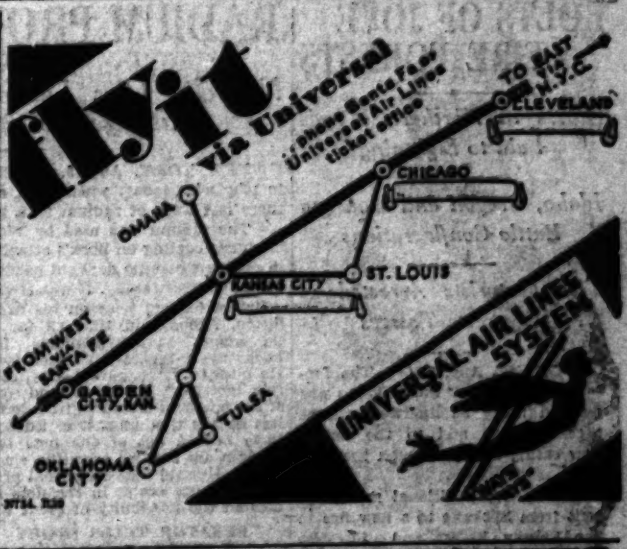

Eastern Ball Star Accused of Slaying Love Rival

HARRISBURG (Pa.) Aug. 5. (P)—A charge of murdering his rival in love today was lodged against Samuel "Red" Crane, a baseball star, who has spent this summer in idleness because of salary differences with the Buffalo International League baseball club.

While intoxicated and mad with jealousy Crane wounded his former sweetheart and killed her companion in a side room in the rear of a saloon Saturday night.

The girl, Della Lyster, pretty divorcee, is in a critical condition today. Her companion, John D. "Jack" Oren, of New Cumberland, died five hours after the shooting.

Three hours after the affair Crane walked into the police station and in a calm voice said: "I'm told I shot somebody."

Only a few weeks and they sail!

An Ocean-Vent Clipper of Rio de Janeiro

LASSCO's Central and South American CRUISE

A strictly limited cruise party leaves October 5 on the palatial liner "City of Los Angeles" to enjoy the cream of all world travel

WHEN it's springtime across the equator... when tropic breezes are at their height... and Latin American life is most brilliant... LASSCO'S 2nd Annual Tour of Central and South America will be on voyage!

And what a tour! First, ten delightful days of sailing without touching any port... a golden opportunity for enjoying the age-old lure and thrill of the sea! Ship sports... dancing... special entertainment and adventures enliven every hour.

The first landing is at Callao, the busy port for Lima, capital of Peru, Peru's beautiful "City of the Kings." From Lima the tour goes to Valparaiso, a city of palaces, broad promenades, and rich villas... one of the chief social centers of South America. Then to Santiago, capital of Chile, rich in the romance of the Spanish conquest.

Continuing permitting, the "City of Los Angeles" will thread her way through the renowned Smyth Channel... a passage winding among snow-clad, mountainous islands and great cliff-bound peninsulas... the most spectacular, breath-taking scenery in the world! Then through the historic Straits of Magellan, a brief landing at Punta Arenas, southernmost city of the Americas, and northward along the Atlantic coast to...

Buenos Aires! Gay, blasé, brilliant... the Paris of the Americas! A city of cathedrals, palaces, theatres, cafes and scintillating night life, that fills several days with absorbing sight-seeing and pleasure!

After Buenos Aires comes Montevideo, picturesque capital of Uruguay, Santos, the coffee capital, and Sao Paulo. Then to the most beautifully situated city in the world, a center of music, art, commerce and marvelous civic development... resplendent Rio de Janeiro.

Leaving Rio, we enjoy a delightful sail in Port of Spain, thence to Caracas... through the Panama Canal and on to San Salvador, Guatemala City, Mazatlan and back to Los Angeles!

A 64-day tour that will cover nearly 17,000 nautical miles and take you to 20 chief ports and cities of 11 of the most fascinating countries on earth! Ashore and ashore you enjoy the finest of accommodations, and every detail of the tour is directed by travel experts.

The tour cost, ranging from \$950, includes a comprehensive program of shore excursions. In the interest of maximum comfort and service, the passenger list will be strictly limited. The sailing date is subject to change to make prompt action advisable in order to secure a choice of accommodations. Apply at the nearest travel bureau for reservations and full particulars, or—

RCA introduces the "66"

RCA Radiola 66

NEW—and still finer RADIOLA SUPER-HETERODYNE at the unprecedented price of \$225*

A still finer Radiola Super-Heterodyne—combined with the incomparable RCA Electro-Dynamic reproducer—in a handsome cabinet—equipped for "all-electric" operation from your wall socket—with a connection for an electric pick-up to reproduce phonograph records.

At \$225 (less Radiotrons)—a price made possible by the great manufacturing resources of RCA—this superb instrument, without a peer in the radio art, is no longer a luxury to be enjoyed by a few fortunate owners. Receiving sets of comparable quality formerly cost from \$500 to \$1000—but they did not equal the new "66" in fidelity of tone, or simplicity of operation.

To improve the Radiola Super-Heterodyne is to gild the lily—but here is an expertly designed broadcast receiving instrument in which the amazingly efficient Super-Heterodyne circuit has been brought to a higher level of achievement.

RCA engineers have again added to the wonderful qualities of the Super-Heterodyne—finer sensitivity, more selectivity, a greater reserve of power for distant stations, and still richer tone quality—the greatest essential of a fine radio. The latest type of the RCA Electro-Dynamic reproducer is coupled with the new Super-Heterodyne—a combination that offers the utmost in radio realism—from a whisper to a brass band.

BOLTS OF JOVE FIRE FORESTS

Blazes in Northern Woods
Laid to Lightning

Idaho, Oregon and Montana
Battle Conflagrations

Two Motorists Arrested as
Cigarette Tossers

SPOKANE, Aug. 5. (AP)—The forest fire patrol over North Idaho was alerted today as lightning storms threatened to add to the flames now eating slowly through the timber.

Twenty-five additional men were sent from Spokane to a new fire in the Selway National Forest. Firefighters here reported that the fire was serious, but by comparison not yet as dangerous as they have been.

Lightning dotted the North Idaho forests with small fires and three large ones today threatened to join. Flames started near the head of Point Lake, where a fire had been controlled after it threatened the city water supply and nearby timber.

The Pack River fire, 8000 acres, was crawling toward a blaze at Napier.

Many blazes still burned in Montana, but forest officers gave no indication that the situation was much worse. A series of bad fires there had been checked somewhat, but the forests today were drier than they had been for several days. Lack of rain and heavy winds hampered foresters considerably.

In the Lewiston section the flames at Baldy Mountain and Glover were last reported burning furiously in an almost inaccessible district.

MANGERS ARREST TWO AS STUB TOSSERS

PORTLAND, Aug. 5. (AP)—Forest rangers arrested two motorists for tossing lit cigarettes from automobiles today and started a campaign to eliminate causes believed to have started serious fires in Oregon and Washington forests.

So serious is the situation in the Chelan National Forest in Northern Washington that seven men, headed by F. H. Brundage, chief of fire control, were dispatched to the forest by airplane today. The fires of various sizes are burning in this forest, they reported, with one of them racing over 10,000 acres of yellow pine near Chelan Lake.

Although fire fighters have controlled the Deschutes forest fire near Bend, Or., a strict watch is being maintained over campers and motorists. A telegram received at forest headquarters here today stated that lightning on the 1st and 2nd insts. had started thirty-five fires.

Charles L. McCullin, Portland, was arrested for throwing a lit cigarette from his automobile while driving from Portland to Hood River, R. Peters, Milwaukie, Or., faced a similar charge when he was arrested while driving on the Eagle Creek trail.

CANADIAN BLAZES GROW MORE SERIOUS

TORONTO (Ont.) Aug. 5. (AP)—The forest fire menace in Northern Ontario assumed a more serious aspect over the week-end, officials of the Lands and Forests

RADIUM PROVES FISH SNARE

Naturalist Uses Luminous Hooks and Pulls Up Strange Creatures of Ocean Depths

NEW YORK, Aug. 5. (AP)—Science gave fishermen something new to play with today, when word arrived from Bermuda of successful use of their last week of radium as a lure for deep-sea fishing.

The radium was used by William Beebe, New York naturalist, as a luminous coating on hooks attached to sounding wires about a mile long, in depths where no daylight exists. The first catch was a squid, a member of the octopus family. It was large enough to fill a fair-sized fruit basket. Before leaving here on his expedition, Beebe said that as far as he knew, radium-luminous fish hooks never before have been used. He outfitted with glow-hooks nearly a foot long, hoping to land some of the powerful creatures from lightless depths that in past expeditions have broken out of the nets that brought up smaller scientific specimens. He said that occasional presence of huge eels in the nets indicated the possibility of great fish.

SENATOR TELLS STORY. News that Beebe had used the radium lure for the first time was brought by United States Senator Walcott of New York, who arrived with George Palmer Putnam, the publisher, on the steamer Fort Victoria from Bermuda. He and Putnam last week visited the expedition of the New York Zoological Society, which is under Beebe's direction at Bermuda.

From this sea near Hopedale, Senator Walcott said, a tiny fish has been reported in the Kenosha district.

NEW FIRES MENACE WISCONSIN WOODS

CHANDON (Wis.) Aug. 5. (AP)—Five major forest fires in Wisconsin are under control today. In their place, however, has sprung up a series of new and smaller fires, a few of which were characterized as "very dangerous." The new conflagrations are in the vicinity of Silver Lake and along the Peshtigo River.

Those in the latter section are the most serious since they have hundreds of acres of dry slashings, remnants of logging operations, to feed on should they jump the lines of trenches and sand thrown up by the fire fighters.

RAINFALL QUENCHES MANITOBA BLAZES

WINNIPEG, Aug. 5. (AP)—Heavy rainfall over the week-end has brought relief to the fire-swept forest areas in Manitoba. Most of the fires in the northwestern and northwestern sections of the province are under control today after an all-day rain Saturday and Sunday.

CALIFORNIA BLAZES REPORTED CHECKED

SACRAMENTO, Aug. 5. (AP)—Forest and field fires were reported controlled in three counties today. The District of Forestry was informed that 3000 acres of brush and grass land were burned over in the Table Rock area near Oroville. More than 20,000 acres were burned before a force of 250 men brought under control a fire in the Mt. Hamilton (Santa Clara county) district. The third fire was near Railroad Park, Calaveras county. It was reported under control.

NEW BLAZE THREATENS Klamath Forest

YREKA, Aug. 5. (AP)—With five fires which have been burning in

KETTLEMAN OIL GROUP IN PACT

Wilbur Reports California Conservation Move

Majority of Operators Said to Favor Program

Unified Development Given as Aim of Signers

WASHINGTON, Aug. 5. (Exclusive)—Secretary of the Interior Wilbur stated today that while the signatures of all of those involved have not been obtained, a majority of the various operators in the great Kettleman Hills oil field have signed up and, by mutual agreement, decided upon a conservation program which he said will lead to a unified development of this project.

Recently, while in California, the secretary went over this field personally with Dr. George O. Smith, director of the Geological Survey, who for some weeks has been engaged in trying to develop this agreement. Dr. Smith, on his return from the West, said today:

COURSE OF ACTION. "The area comprised in the agreement covering the three domes of Kettleman Hills is 190 square miles, of which slightly more than fifty-three square miles is owned by the United States. It is simply as a large landowner that the Federal Government has been able to exercise a degree of control over the Kettleman Hills development. The three agreements entered into are primarily between the government and the landowners and the permittees and lessees and supplemental to these agreements are the instruments of the program of the Secretary of the Interior by the private owners and their lessees, who are willing to adopt the policy of delayed development as of mutual benefit."

A significant paragraph in the new agreement looks forward to the Kettleman Hills development and shows the interest that has been aroused in the possibility of economy in a field where a well costs at least \$250,000. This paragraph reads:

ECONOMY PROGRAM. "In line with the government's policy of oil conservation in which this agreement is entered, the parties interested in the Kettleman Hills field undertake by the appointment of a representative committee or by other means to consider a plan of unit development, or other co-operative method of developing this great structure with a maximum of production and utilization at a minimum of operating cost; such committee to report its progress from time to time to the Secretary of the Interior."

Supervisor Benedict at North Fork said there is no doubt about fire being of incendiary origin, probably set by time. He said that the methods used probably would prevent capture of the persons responsible. However, officers led by Sheriff Castagneto of Mariposa county, have started a search.

FIRE BUGS HUNTED AS EIGHT BLAZES START

PRESNO, Aug. 5. (AP)—Eight fires, believed to have been of incendiary origin, today destroyed about forty acres of timber and 900 acres of brush near the Chowchilla ranger station of the Sierra National Forest, according to advice received tonight by the Fresno Morning Republican.

Supervisor Benedict at North Fork said there is no doubt about fire being of incendiary origin, probably set by time. He said that the methods used probably would prevent capture of the persons responsible. However, officers led by Sheriff Castagneto of Mariposa county, have started a search.

FIRE BUGS HUNTED AS EIGHT BLAZES START

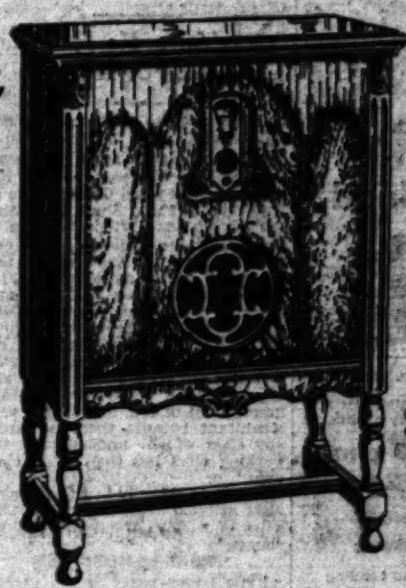

PRESNO, Aug. 5. (AP)—Eight fires, believed to have been of incendiary origin, today destroyed about forty acres of timber and 900 acres of brush near the Chowchilla ranger station of the Sierra National Forest, according to advice received tonight by the Fresno Morning Republican.

"The Set with the PUNCH"

\$147.00 (last tubes)

Approved Johnson-Cable No. 25, with model 100 Stewart-Warner Radio, 8 tubes, including vacuum tubes, "balanced bridge" circuit, Electro-Brass Reproducer, Cabinet of American Walnut with mahogany top and bottom, by Louis H. Brown, Co., Chicago, and Bureau Photograph Corporation, Los Angeles, Cal.

Hear this Champion perform

Distance-getting ability in a radio is like speed in a car. You may not always want it, but you want to know it's there when you do.

And you certainly have it in the new Stewart-Warner—"The Set with the Punch." This new champion has more go-getting power than you ever dreamed possible. Not only to bring in distant stations, but to develop the big, rich, satisfying volume of local reception.

Wherever you go, dealers and public alike call this new Stewart-Warner "The Set with the Punch"—the punch that has knocked out all previous standards.

of radio performance—the punch that gives distance, selectivity, volume and life-like tone never before available in a radio set.

All of this is made possible by the famous Stewart-Warner balanced bridge circuit, the last word in tube assembly, the wonderful new electro-dynamic reproducer and other super refinements—even to 22-carat gold plated connections throughout.

Go to the Stewart-Warner dealer and ask him to demonstrate this beautiful all-round champion radio. A small initial payment puts it in your home.

WHAT GOES ON IN YOUR MIND WHEN YOU CONTEMPLATE A NEW BANKING CONNECTION? DOES NOT YOUR MIND ASK THESE QUESTIONS:

1. Is the bank conservative and sound in its policies?
2. Are the bank's resources such as to enable it to care for my worthy financial requirements?
3. Do the bank's officers have the disposition to be helpful?

Will You Consider These Facts Regarding Seaboard In Such Contemplations?

QUESTION NO. 1

This bank has made a record unsurpassed in the history of California for conservative operations. Its losses on approximately \$80,000,000.00 turnover of loans have been less than \$1800.00.

Both the last Clearinghouse Examiner's report and the last Federal government examiner's report did not list one dollar of bad or doubtful loans at the close of the examination.

These facts evidence policies most sound.

QUESTION NO. 2

An analysis of the statement of the Seaboard shows an unusually high cash reserve. This, together with its bonds and quickly saleable secured notes and commercial paper, is more than 100% of the bank's deposits.

This unusually liquid condition, together with the bank's capital and surplus of \$2,500,000, places the bank in a strong position to care for its borrowing customers.

QUESTION NO. 3

In carrying out the very definite purpose to build Seaboard into one of the strongest financial institutions of the West, only those have been selected for officers who have demonstrated an ability to understand the needs of their customers and a disposition to help those customers better their financial condition.

The executive officers are immediately available to all the customers of the bank, and they are constantly striving to be personally acquainted with, and helpful to, each of the bank's clients.

REAL ES

The Fallacy of Investing for High Yields and Quick Turns

MANY people still have the idea that they cannot afford to invest their money at 6%. In an effort to make their money earn more than it can possibly earn with safety, they resort to one or more of the various forms of speculation.

Generally, they buy securities which promise to give them quick profits through enhancement in market value or through large dividends or both. And, as a rule, they find sooner or later that not only have the expected profits failed to materialize but also that their capital has been seriously impaired.

Many people speculate when they really intend to invest, and find it out only through bitter experience. They are the victims of the fallacious lure of high yields and quick turns.

On the other hand, many investors have discovered that the sure and regular returns from a sound 6% investment, when compounded systematically, accumulate far more rapidly than the spasmodic returns from speculative operations.

There is a definite limit to the earning power of money which is legitimately and safely employed, and there is no way to go beyond this limit without taking risks that are proportionately much greater than the possible gains. This is strikingly attested by losses of hundreds of millions of dollars every year, in this country alone, through speculative and unsound investments. In the face of this situation, many investors—ever hopeful of finding a way to "beat the game"—continue to take unwarranted risks.

To the confirmed speculator we have nothing to offer; but to the investor who seeks safety of principal and certainty of income we offer the *utmost*—without reservation.

To the investor who seeks *safety first*, and then the highest interest returns commensurate therewith, we offer a form of investment that was designed especially for his purpose—a time-tested investment that has stood sound and secure through the most violent vicissitudes of business ever known.

This safe, dependable investment, which is provided by this Company in the form of Insured First Mortgage Certificates, each year has been in increasing demand by banks, insurance companies, trust estates, and individual investors, until today the demand is nation-wide.

We can say without reservation that this investment offers the utmost in safety and yield for the following reasons:

1—Insured First Mortgage Certificates, as originated and issued by this Company, represent actual pro-rata ownership in a group of ultra-conservative first liens on select, improved real estate diversified territorially and otherwise.

2—Never, under any circumstances, can these liens exceed 50% of the low appraisal values.

3—Every lien is deposited in trust together with a policy of insurance which further protects the investor against any loss of either principal or interest.

4—Interest at the rate of 6% is paid on all Certificates maturing in two to five years and this interest is paid either quarterly or semi-annually as the investor may elect.

5—Because the Certificates are issued in denominations of \$100 and multiples thereof, the investor is enabled to keep his funds closely invested and thus avoid interest losses. Moreover, interest is paid by check, promptly on due dates, which relieves the investor of the responsibility of clipping coupons and collecting interest in the usual manner.

In fact this form of investment is free from *all* care and responsibility; and, because of the safety of the principal, the certainty of the income, and the convenient denominations, it is particularly adapted to the systematic accumulation of funds through the pyramiding of principal and compounding of interest.

Bear in mind that these Insured First Mortgage Certificates are first protected by improved diversified real estate in a ratio of better than two to one, and then insured as to both principal and interest by this institution, under the Mortgage Insurance Act of California.

No matter whether you are investing your private funds, or whether you are acting as an executor, administrator, trustee, or agent for an institution, we believe you will find that these Certificates offer you advantages that you cannot afford to overlook.

A request by mail or telephone, if you cannot call in person, will bring you information sufficiently full and explicit to induce your decision without any importuning on our part.

BAY CITY GROUP ON AIR TONIGHT
Symphony Program Booked by Don Lee Station
Hawaiian Melodies Period Changed by KFI
KMTR Lists Broadcast of "Musical Bouquet"

BY DR. RALPH L. POWER
KMTR, the local Don Lee station, will broadcast another Tuesday night program of the San Francisco Symphony, commencing at 8:30 o'clock this evening.

The program is to include: Beethoven, by Berlioz; Chopin's 9 minor concerto; the Mozart Klavierkonzert; Wagner's Siegfried Idyll and his Elfen Overture.

The series of KFI Wednesday night programs for a half-hour at 9 o'clock, made up largely of Hawaiian melodies, has been switched to Tuesday at the same time. The first of the new series will be on the air tonight.

FLOWER PROGRAM
KMTR at 11 o'clock is scheduled

One idea caught is worth ten merely thought"
Says
Arthur McGrew

AND with The Dictaphone you can catch and record every good idea you get.

Think what it means to have a mouthpiece always at hand into which you can speak your thoughts whenever you want to record them.

The Dictaphone, on your desk, beside your easy chair at home, on the Pullman and in your hotel room, is always there when valuable ideas are born and cry for expression.

Phone Mr. McGrew at TRINITY 9157 and he'll tell you all about the quickest, easiest way to get things off your chest.

Maine Tells How Cuticura Healed Pimples.
My face was covered with pimples and they were so bad that I did not look very nice. The pimples were so bad that I was ashamed to go out. I used Cuticura Soap and Cuticura Ointment. The pimples began to disappear and in a few days I was completely healed. (Signed) Miss Ida Maine, Portland, Ore.

THOSE are names to conjure with in aviation. They and many more outstanding aviators are the people who have planned, built and now operate the 48 hour Coast-to-Coast plane-train service of Transcontinental Air Transport, Inc., aided substantially by the Pennsylvania Railroad, one of its principal stockholders. TAT has invested over a year's time and millions of dollars in building the world's most complete and extensive ground organization to insure the utmost of reliability, comfort and speed in the air. No other airline has all the same facilities.

TAT travelers embark therefore with a confidence in the TAT organization and personnel—and a certainty that TAT schedules will be maintained.

To the travelers of America, TAT offers the last word in speedy comfortable Transportation, whether the trip be across the continent or between local points on the route. And not only does TAT service save time—it's fascinating viewpoint, entirely free from dirt, dust and heat.

For detailed information, form, etc., regarding TAT Coast-to-Coast plane-train service, see the Transcontinental Air Transport, Inc., 512 Pacific Mutual Bldg., Los Angeles, Phone VA ndike 2127.

NOTICIAS MUNDIALES DE ULTIMA HORA
NOTAS TELEGRAFICAS

Se Concede el Divorcio a la Señora Harriman.

PARIS, Agosto 5.—Los tribunales de París le han concedido hoy a la señora William Averell Harriman su divorcio de William A. Harriman, banquero y exportador de Nueva York. La separación fue pedida por la querelante alegando abandono.

Harriman, que es presidente de la directiva de la sociedad anónima W. A. Harriman y Compañía, y cotizador de muchas otras compañías, se casó en Septiembre de 1925 con la señora Harriman, que era entonces la señorita Kitty Laler Lawrence, de Nueva York. Tienen dos hijas. La mayor, Constance en Lancashire (Inglaterra).

Agosto 5.—Ha entrado hoy en segunda semana el paro de las industrias textiles de Lancashire, y parece ser que la solución de esa huelga se ha retrasado. En la semana pasada, en que 500,000 obreros abandonaron las fábricas en señal de protesta contra la orden de que fueran reducidos sus jornales en un 13-1 por ciento. A pesar de que los 500,000 huelguistas han perdido como \$3,750,000 en salarios durante la semana pasada, no se ve que estén preocupados por su situación. Ater se han agotado de huelguistas, los restaurantes, los cinematógrafos y los sitios de recreo de Manchester.

En las iglesias de Lancashire se ha resado por una pronta terminación de la actual disputa.

Los Navegantes del Tío Sam Tiran.

NUOVA YORK, Agosto 5.—Hace apenas una semana que buscaba alivio la ciudad de Nueva York de la más intensa onda calida de este verano. Hoy lucen por todas partes los gabanes, pues al termómetro ha bajado a 64 grados en el área metropolitana de Nueva York, y está soplando fresco viento del noroeste.

La temperatura de hoy ha bajado un record, pues el 5 de Agosto más frío de que se tenía memoria fue el de 1915, en que el mercurio bajó a 64 grados.

Se le Ha Nombrado ya Sucesor a Fletcher.

WASHINGTON, Agosto 5.—Ha decretado el Rey Alberto de Bélgica, que en interés de la investigación científica, se señale un gran coto en el Congo Belga para la conservación de la fauna y flora africanas, y para el estudio científico de las especies raras en su ambiente y su medio natural.

Hizo el anuncio el establecimiento del coto citado el Príncipe de Ligne, embajador belga en Washington, quien comunicó la noticia a la Prensa Asociada, tan luego como la recibió telegráficamente de Bruselas.

Hace algún tiempo que tenía anunciado el señor Fletcher que pensaba retirarse del servicio diplomático.

Ya le ha sido notificado al ministro de Estado que el señor Garret se persona para el gobierno italiano. Veinte años ha tenido de servicios el citado caballero en nuestro cuerpo diplomático. Ha sido ministro en Venezuela, en la Argentina y en los Países Bajos. Cuenta con venir en breve a Washington para conferenciar con el presidente Hoover y el ministro de Estado Stimson antes de partir para el Viejo Mundo.

Appeal Stays Death Penalty

PHOENIX, Aug. 5. (AP)—Sentenced to be hanged in Florence penitentiary for the murder of Martin Parks, near Benson February 16, last, Charles Foster automatically gained a stay of execution today by filing his appeal from the Cochise county verdict in the State Supreme Court.

Foster was convicted of first-degree murder on evidence purporting to show that he shot and killed Parks, alias Mike Baker. The jury recommended the death penalty and Superior Judge Albert L. Sames sentenced him to hang the 29th inst.

NOTAS LOCALES

Habia una Quiropráctica de los Maes Nerviosos de los Niños.

Los padres regañones, cuyas querellas domésticas mantienen a los niños en un estado de tensión nerviosa, fueron duramente censurados ayer por la doctora Wilma Churchill Wood, miembro del comité de la sexta convención anual de la Asociación Quiropráctica Progresiva Nacional, cuya sesión inaugural se verificará el próximo lunes en el Colegio de Quiropráctica de Los Angeles.

Declaró la doctora que el 30 por ciento de los casos de niños nerviosos que ella ha observado, tienen su origen en las dificultades domésticas de que esos niños son testigos.

Dijo en una charla que era preciso prevenir a los padres que no insistieran en que sus hijos comieran cuando no tienen hambre, aunque sea a hora de comidas. Cuando se necesita alimento, el apetito lo reclama. Forzar el alimento en un cuerpo es llenar el sistema de toxinas.

Al congreso quiropráctico de que se viene hablando satíricamente, se tiene previsto, más de 3000 congresistas.

Charlas Infantiles para Chiquillos de Escuela.

FINANCIAL

RE-INSURANCE BUSINESS GROWS

Earnings for Year Placed at \$5 Per Share

Excess Income Reported at \$1,547,253

Assets Increase \$535,942 in Six Months

International Insurance Corporation in its report for the first twelve months of operation ending June 30, last, issued yesterday, showed gross income from premiums, interest and rents of \$2,906,637.81. Disbursements during the same period for retrocessional premiums, losses, loss expenses, commission and general overhead aggregated \$1,449,384.24, leaving an excess of income over disbursements of \$1,547,253.67.

Of this excess, \$1,181,398.92, distributed in the balance sheet, to measure premium, loss reserves and reserves for commission, taxes and other liabilities while the remainder, \$365,854.75, was added to surplus account.

Total assets were listed at \$6,547,253.67 which included cash and call loans amounting to \$1,906,582. Insurance reserves totaled \$2,910,948 which in addition to the regular statutory loss reserves, included a voluntary contingent reserve of \$600,000.

The corporation's actual earnings for the first year of operation were estimated by C. M. Hansen, president, to be in excess of 45 per cent on the 100,000 shares of common stock outstanding during the period, allowing proper credit for stockholders' equities in the reserve. Subscriptions rights for 50,000 shares of additional stock, already issued, were held by stockholders.

A comparison of the balance sheet of June 30, last, with that of December 31, last, shows an increase in total assets of \$2,535,942, which after deducting \$2,000,000 added capital and surplus leaves a net gain of \$535,942 for the six months. Insurance reserves increased from \$1,350,000 to \$2,910,948 during the same period.

With the corporation now operating on the basis of a premium income of between \$4,000,000 and \$5,000,000 annually, the outlook for the future is promising. Mr. Hansen said, of this volume, only approximately 35 per cent originates in California, the remainder coming from all over the United States as well as several countries of Europe, South America and Central America.

Further extension of the European business is one of the developments expected during the next twelve months.

BUSINESS LEVEL HERE RUNS HIGHER

Bank Summary Points to Gains in Iron, Steel and Other Lines

Although the usual seasonal declines are evident in some lines of activity most phases of industry and trade in Southern California continued to maintain levels above a year ago, including the iron, steel, automobile tire and petroleum industries, according to the monthly summary of business in the Pacific Southwest issued yesterday by the Security-First National Bank.

The report states: The total volume of business in the Pacific Southwest issued yesterday by the Security-First National Bank. The report states: The total volume of business in the Pacific Southwest issued yesterday by the Security-First National Bank.

July 1 crop reports for California indicate that the 1929 yields of wheat, barley, oats, corn, sorghum, and cotton are smaller than in 1928. Prospects for the cotton and walnut crops in California are also smaller than in 1928.

The harvesting of citrus fruits continues in a large volume. July and August yields are 30 per cent above the July, 1928, shipments.

PUBLIC SUPPORT SOUGHT

Leaders in Bull and Bear Parties Strive to Win Traders to Their Side; Rivalry Tense

What appears to be under way in the stock market is a contest for control between well organized professional groups. The objective is the winning of public support, one group striving to whip security prices upward to attract the public to the bull side, and the other using every means possible to frighten the traders and induce liquidation and short selling.

Without the aid of the public, neither group can hope to dominate the trend of the whole market. For the first time in several years the main body of traders is out of the market and the professionals are exerting every trick in the trade to win a revival of interest.

On the bull side the old-time favorites are being put through their paces and most of them are stepping out in great style. On the down side the boys of tight money, prospects for a rise in the bond market, discount rate, and rumors of the resignation of Secretary Mellon are the chief weapons.

CONDITIONS FAVORABLE

In picking out the popular stocks like Western Union, American Telephone and Telegraph, and others, the leaders of the bull party are working in lines where the technical conditions are generally helpful. The trading corporations and investment trusts have pretty well cleaned up the market in the high-grade investment issues and ordinarily have buying orders in at lower prices on the cash market. These stocks are not difficult to move, but at the same time the prices are too high for the rank and file of traders to handle.

Under cover of whirling activity in these shares, the hope is that buying may be stimulated in other, particularly in those in which pools have large lines to liquidate.

LOCAL SHARES SOFT

On a smaller scale the same procedure is under way in the Los Angeles market. So far, however, the public has not been able to take advantage of a popular stock is touched off and moved up several points, but on the following day the support seems to fade away. The powerful name of the Goldman Sachs Trading Corporation is freely used to cover some of these operations, and in several instances the story wins a following for a brief time. The action yesterday of the bank stocks, notably Security-First National, Citizens National and California is an illustration.

Unless the opposing forces are helped by developments of broader character, the action of the market is likely to be a series of small, unimportant fluctuations. The action of the market is likely to be a series of small, unimportant fluctuations.

Should the booming activity in the market finally get under the skin of the traders there is a chance for another period of wild speculation to materialize. This is what the larger leaders of the bull party are looking for, but against which the banking authorities are firmly opposed.

Mortgage Unit Makes Report

Net earnings of the Lincoln Mortgage Company for the first six months of the year ended June 30, last, amounted to \$194,801. J. E. Baile, president, announced yesterday. After the payment of preferred dividends, this amount is the equivalent to approximately 15 cents a share on 1,338,000 shares outstanding.

Collections, Mr. Baile reported, were satisfactory, the delinquent loans standing at less than 1/4 of 1 per cent. Both the sales and gross earnings, he said, were about the same as in the first half of 1928.

Business in the last two months of the first half of the year indicated, in his opinion, an increase for the building and financing of single homes.

CRETIFRAT GIVEN TO EAGLE ROCK AIRPLANES

Alexander Industries, Inc., manufacturer of the Alexander Eagle Rock three-place airplane, has received an approved type certificate from the United States Department of Commerce approving its ship equipped with a Kinner radial motor. The certificate, which is valid until the 10th of next month, must be delivered to the office of the transfer agent before the close of that date, Mr. Porter added.

CAPITALISTS FORM INVESTMENT TRUST

NEW YORK, Aug. 5. (AP)—An investment trust to be known as the General Capital Corporation, with an initial capital of \$15,000,000, all in common stock, has been formed by a group of Boston and New York capitalists. They include Roland W. Boyden, former member of the United Fruit Company; Matthew C. Brush, president of the American International Corporation; and Daniel G. Wing, chairman of the First National Bank of Boston.

J. W. HALL JOINS BROKERAGE HOUSE

J. William Hall, formerly connected with J. P. Morgan & Co. in New York and for the last ten years with the International Mercantile Marine, has become associated with Russell Miller & Co., members of the New York Stock and Curb exchanges, and will be identified with the Los Angeles office in the Associated Realty Building. It was announced yesterday.

SIGNAL OIL NET REGISTERS GAIN

Mosher Reports Earnings of \$3.21 in First Half

Only Two Months of Crude Sales Included

Natural Gasoline Output 120,000 Gallons Daily

Satisfactory progress in the first half of the year and prospects for greater improvement in the last half were outlined yesterday by J. B. Mosher, president of the Signal Oil and Gas Company, in releasing the income account for the six months ended June 30, last. Net profit after taxes, including depreciation, depletion and taxes, amounted to \$99,311.11, the equivalent to \$3.21 a share on the 30,760 shares of \$100 par value common stock and 3 outstanding shares of \$100 par value preferred stock.

Earnings for the six months, Mr. Mosher said, only include about two months of crude oil sales, the production division comparatively recently having been shut down.

Approximately 3000 barrels daily of crude are now being sold to purchasers, and it is expected that this amount will be increased. By the end of the year it is hoped to raise production to about 5000 barrels daily.

Production and sale of natural gasoline, the chief activity of the company, averaged approximately 120,000 gallons daily in the first half of the year. This amount was divided into 90,000 gallons from the California plants, and 30,000 from the Big Lake field, Texas, where the company owns valuable gas contracts, the president said.

Other fields in which Signal is interested are holding up satisfactorily, according to Mr. Mosher. Gross operating income for the six months, the report shows, totaled \$2,800,795.82, leaving profit, before depreciation, depletion and taxes, of \$99,311.11.

In the first six months of 1929, the profit before depreciation, depletion and taxes was \$97,543.1, compared with current liabilities of \$15,297.9, or a ratio of better than two to one.

Tobacco Split-up and Higher Rate Forecast in Fall

NEW YORK, Aug. 5. (Exclusive)—Directors of American Tobacco Company are expected to announce early this fall plans for the reduction in the par value of the common stock from \$50 to \$25 a share and for the issuance to stockholders of two new shares for each share held. It was reported.

In view of the high rate of earnings it is understood the new stock will be placed on a 50 annual basis, equal to 50 per cent of the present capitalization on which the annual rate is \$4 a share.

Present indications are that the company will realize a profit of \$100,000 in sales and earnings for the sixth consecutive year ending December 31, next. The net earnings for the year are estimated at better than \$100,000, or \$11.19 a share.

National Tea Earnings Gain

CHICAGO, Aug. 5. (Exclusive)—National Tea Company today reported net profits of \$1,027,778 for the first six months of 1929, equal after preferred dividend to \$1.92 a share on the 530,000 shares of common stock outstanding.

These figures compare with \$1,330,575 in net profits for the same period last year, equivalent after preferred dividend to \$1.92 per share on the same number of outstanding shares. The company now has 1616 locations including 137 meat markets.

PIPE LINE APPROVED

SAN FRANCISCO, Aug. 5. (Exclusive)—California Railroad Commission today granted Pacific Gas and Electric Company permission to construct a sixty-mile branch natural gas pipeline in order to serve the city of Fresno. The pipe line will deliver 11,000,000 cubic feet per day and will cost \$600,000.

COTTON MARKET

NEW YORK, Aug. 5. (AP)—A slight decline in the cotton market was noted today. The market was quiet, with a few scattered transactions. The price of cotton was 12.15 to 12.20 cents per pound.

NEW YORK, Aug. 5. (Exclusive)—General trading was quiet today. The market was quiet, with a few scattered transactions. The price of cotton was 12.15 to 12.20 cents per pound.

VALUE OF LIVES COMPUTED

Insurance Executive Lists Monetary Appraisals of Human Beings from Birth

BY JOHN F. SINCLAIR

(Copyright, 1929, by North American Newspaper Alliance.)

Dr. Dublin of the Metropolitan Life Insurance Company has been trying to put a monetary value on human life. Naturally, life insurance companies must stress the economy of human life, the non-economy of preventable sickness and the heavy loss of premature death. It is all down in statistical tables for them.

According to the survey of Dr. Dublin, it costs a little more than \$10,000 to rear a child to the age of self-support, in a family whose income is \$2,500 a year. At the self-supporting age, the present worth of the net future earnings of the male is calculated at \$29,000. At the age of 25, it is \$32,000. At birth, the child is supposed to be worth \$9,339, and at \$14,116.

For some reason the value of females is set arbitrarily at one-half that of males. On that basis, the aggregate present worth of the future net earning capacity of the American people is put at 1500 billions of dollars. And the estimated value of all the material assets of the United States today is only 211 billion.

Human life, then, is shown statistically to be worth nearly five times the material assets.

Public health, therefore, becomes of first importance, an expenditure of \$2.50 per capita against preventable diseases would reduce the annual death rate two points per thousand and increase the expectation of life from five to seven years.

Child sickness today costs \$180,000,000 annually, while preventable death totals more than ten times that. Yet only \$60,000,000 a year is being spent on child welfare.

The hot weather has again brought the attention of the business world to the problem of the air cooled office building.

The Milan Building in San Antonio, Tex., has now. The temperature is always under 80 deg. in the summer and above 70 deg. in the winter. The plant regulates the humidity of the building, which by the way is just as important as the temperature. It washes and purifies the air that circulates within each office every seven minutes.

The spray chamber is the heart of the weather plant. In this building water is put at 1500 gallons a minute. The spray water is purified by a series of filters and is used over and over again.

Air comes into an office through a grill in the wall near the ceiling. Dampers on the various distributing units make it possible to regulate the volume of air to compensate for the position of the sun during the day.

VISITS CITY

Kirby L. Vidrine, manager of the Phoenix (Ariz.) office of the Anglo-London Paris Company, is visiting here on business.

in Seven Years
with Public Utility Security

An exceptional opportunity is offered the investor who is working to build up an investment fund or to rehabilitate a depleted one. Associated Gas & Electric Company Class "A" Stock is paying dividends either in cash at the rate of \$2 per year or in Class "A" stock at the annual rate of 10% of a share. These annual stock dividends of 10% if compounded will double the value of the original investment.

POTENT POINTS
The outstanding strength of Associated Gas & Electric Company is briefly shown by these four facts:
Population Served 5,300,000
Customers Served 1,200,000
Property Valuation \$900,000,000
Gross Revenues \$100,000,000

Yet the constantly increasing earning power of this strong public utility indicates appreciation possibilities for the stock which should double the original investment in an even shorter time. We recommend that you investigate the full possibilities of this issue, both from the standpoint of the liberal return offered and the underlying strength of the issuing company.

Where a City Lives

THE rapidly growing popularity of apartment house as a dwelling place is convincingly shown by statistics covering the American cities. During the period from 1918 to 1928, the percentage of one-family homes has declined from 43.4% in 1922 to 34.6% in 1928, while the percentage of multi-family dwellings increased from 34.6% to 61.2%. The building of giant apartment houses to meet this demand is today becoming a highly specialized industry dealing with a commodity which is projected, produced and sold much as any other product. Likewise financing of this operation has become a scientific business requiring special training and experience.

Bowes Brothers & Company, as specialists in building finance, enjoy a preferred position in the building bond field. The offerings of this organization are carefully selected after expert analysis of every factor that makes for sound investment.

ESTIMATE FOR COTTON ANNOUNCED

Newspaper Believes Crop 70 Per Cent of Normal on August 1

MEMPHIS (Tenn.) Aug. 5. (Exclusive)—Reports to the Commercial-Appel indicate that the condition of the cotton crop as of the 1st inst. was 70 per cent of normal for the date. George Posnick's report says in part:

The indicated probable production, based on government acreage and on past it is believed the government will use in its estimate due the 8th inst. as of the 1st inst., is 15,378,000 bales, 500-pound gross weight equivalent.

The crop in most northern areas of the belt continues to make satisfactory progress, but deterioration in spots in the southern half is reported.

Deterioration, where occurring east of the Mississippi River, is attributed in most instances to boll-weevil ravages or to too frequent showers and sunshine deficiency; in Texas to wet weather, in coastal areas, and southwest and lack of rainfall over a large part of the rest of the State, principally west, northwest and locally in central territory.

The Commercial-Appel estimate with comparisons, bales in thousands, is as follows:

LOS ANGELES EXCHANGE

Banks and Utilities Advance to New Highs and Feature Local Stock Trading

Strong speculative enthusiasm swept through the Los Angeles Stock Exchange yesterday as one of the most active sessions of the dull summer season and on a revival of brisk constructive buying a number of issues were forced to new high prices for the year. The oil list was relatively neglected while utilities soared upward and the banks once more entered the speculative lists.

Security-First National Bank was the most active issue of the board and followed up its spurt on Saturday with a jump of 3-8 to a high of 130. On subsequent selling the stock sold down to a close at 129 1/2, up 2-8 on the day. Citizens National scored a new peak price at 118 1/2, reaching the top on the last sale, up 3/4 points. California Bank hit a high at 140, up 3/4, and ended at 137 1/2, up 1/2 point. Transamerica was unusually active, reaching 130 and closing at 127 1/2, up 3-4 points.

Deterioration, where occurring east of the Mississippi River, is attributed in most instances to boll-weevil ravages or to too frequent showers and sunshine deficiency; in Texas to wet weather, in coastal areas, and southwest and lack of rainfall over a large part of the rest of the State, principally west, northwest and locally in central territory.

The Commercial-Appel estimate with comparisons, bales in thousands, is as follows:

Investment Counselors
for over a Quarter Century

FROZEN

Even in a rising market many investors fail to secure as substantial a return on their capital as they should.

The reason is that they own some one or more stocks, unwisely selected, which either decline or fail to advance. Natural unwillingness to take a loss, plus real uncertainty as to whether it is wise to do so, ties up their capital unproductively. They inadvertently get into a position that banks call having "frozen assets."

Do you own

lagging securities?

Analyzed, this situation is caused simply by not having a place to turn to for sound, authoritative advice. Advice from an unbiased source, capable of determining whether a lagging security should be sold or not is essential to full investment success.

Immediate value

Clients have frequently said that Brookmire recommendations on the securities they owned at the time of subscribing, have alone been of such value as to immediately more than offset the total cost of Brookmire Service to them.

Brookmire Service can serve you, just as it is serving many thousands of other investors. A description of this 25-year organization of investment counselors will be sent on request.

Wheat Supply
Report Sends
Prices Lower

CHICAGO, Aug. 5. (U.P.)—With the United States wheat supply report showing about the lowest increase ever known in this time of year, wheat prices today were heavily depressed. The increase of only 100,000 bushels in the wheat supply for the year ending July 1, 1932, was the lowest since 1914, when the increase was only 100,000 bushels. The report also showed that the wheat supply for the year ending July 1, 1931, was 1,000,000 bushels less than the supply for the year ending July 1, 1930. This was the first time since 1914 that the wheat supply for one year was less than the supply for the year before.

SHIPPING NEWS

AND ACTIVITIES AT
LOS ANGELES HARBOR

CITRUS TO MOVE ON MANY SEAS
California Fruit Stated for World-wide Shipment

Practically Every Marine Route to be Covered
Loaded Tanker, Northbound, Crashes Into Dock

BY WALDO DRAKE
Practically every trade route on the oceans hereafter will be traversed by ships carrying Southern California citrus fruits under refrigeration, jointly the result of the growing world-wide markets for these products and the completion of conversion to refrigerated freight transport of numerous off-shore fleets.

Yesterday, the Oceanic and Oriental Line announced the 17th ship for its new citrus service to South America, the Golden Dragon sailing on that date with her 15,000 boxes of refrigerated citrus loaded to capacity with oranges. Her sister ship, the Golden Sun, is due here Thursday for installation of refrigeration equipment and a month later the Golden Peak will arrive for conversion. Parks & Kuehn, Inc., are converting all three vessels to carry citrus and the company announced that advance fruit bookings for the three ships already are far in excess of expected offerings.

NEW YORK SERVICE
The start of a regular express fruit service to New York also was effected yesterday when the Panama-Pacific Line electric liner Valencia took out 14,000 boxes of Valencia oranges under refrigeration, Capt. W. H. D. Brown, Pacific Coast operating manager of the Panama-Pacific Line, said that refrigeration space on the company's fast inter-oceanic liners is solid for oranges through the next two months.

More than 600,000 boxes of citrus fruits will be carried out of Los Angeles Harbor this season to the United Kingdom and North Europe by the joint service of the Royal Mail and Holland-America lines. It was announced yesterday by C. J. Lehman, district manager, Mr. Lehman added that 250,000 boxes of fruit will be loaded out by Royal Mail-Holland-America ships during the next eight weeks in the following order: Lochmaw, next Saturday, 250,000 boxes; Nebraska, 24th inst., 32,000 boxes; Naresia, September 1, 32,000 boxes; Netherberg, September 2, 40,000 boxes; and the Nebraska, October 19, 50,000 boxes.

EUROPEAN DEMAND
"Citrus exports to Europe and the United Kingdom this season will exceed 1,000,000 boxes," said Lehman, "and Europe has in the past two years become so fond of California oranges that we are preparing for a material increase for 1930."

As the last of four new motor liners with augmented speed, passenger and refrigeration facilities which are being built by Holland-America and Royal Mail for European-Pacific trade, Mr. Lehman yesterday announced ordering of a sister ship to Holland-America's Deftid, now completing. It will be 500 feet long, with a beam of 5 feet and a loaded speed of fourteen knots. Construction will be at the Wilton yards, Rotterdam, the vessel having 10,000 cubic feet of refrigeration space.

STEERING CHANNEL MISHAP
The tanker Lake Miraflores made a sudden turn in the main channel yesterday and tore up several feet of the old Southern Pacific dock when her port steering motor broke down. The tanker was loaded with gasoline and fuel oil bound for Oakland.

Hero of a rescue in the North Atlantic is Capt. Frederick Anderson, master of the Danish motorship Australasia, who yesterday rescued 133 passengers and freight from Northern Europe. Capt. Anderson owes his promotion to his volunteering, as first mate on the Coast Guard cutter, to help in a howling hurricane last November and rescue thirteen Germans from the sinking steamer Herkynia. He was rewarded by medals from the German and Danish governments and from the steamship companies, and elevated to captain. The Australasia disembarked three passengers and is discharging 2500 tons of ferro-silicon and ferro-manganese.

The Japanese liner Shinryo Maru arrived from Yokohama with sixty-eight passengers and freight, and with T. Takeuchi, formerly of the Ginyo Maru, as master, vice J. Tsuji, who is on vacation. She will embark 135 travelers and load 1000 tons before sailing back Friday.

The Dollar globe-grinding liner Texan, which sailed for the north last night after discharging 2800 tons of freight here. One shipment of more than 800 radios was included in the local cargo.

One hundred cabin passengers and 3000 tons of California products went out to New York and the Spanish Americas last night aboard Panama Mail's liner El Salvador. Prominent among the passengers are Mrs. Lloyd S. Nix, wife of the City Prosecutor, and her daughter, Lor-

The Cancer

by
Harry Carr

THE eye doctor says there is nothing the matter with my lamps; somebody has taught the Llewellyn nin to behave.

While the mood is still upon us, let us hasten to forgive everybody for the libels they have put upon us . . . the shame of a lumber magazine which objected to my meek remarks about letting down the redwoods; the wham that the *Raton Reporter* of New Mexico took at me on general principles—and Mr. Lee Shippey for insinuating that I am

WELL, AFTER ALL—
It is a fact that I do not
like to hear cannon going off;
but I don't especially favor the
music of bullets whizzing by my
scalloped ears. More particularly
the kind that whir like humbly-
bugs—showing that they are go-
ing sideways and would play on
your gizzard if they landed.

As to the Numbermen, I shall have to confess that they have been treated without tenderness. If the giant redwoods have to be cut down they are at least making an effort to reforest the same lands.

PANNING THE POLICE
The police are again on the part. An evening paper has discovered that they take finger-

MOTOR CRIMINALS
When it comes to dealing with the motoring public, the police are in a tough position. The truth is the whole method of enforcing the automobile laws is fundamentally wrong. It places the violator of the agreed-upon

Until automobiles came into vogue, to be arrested was to endure social disgrace. Little boys didn't play with little boys whose pas had been arrested. At the present time nine-tenths of the respectable citizens of the community have criminal records. It is essential for the enforcement of law that criminals be sharply

WHERE IT BELONGS
In some manner the enforcement of driving regulations ought to be in the hands of the State Motor Vehicle Department—not the police.

F As to this hullabaloo over taking fingerprints. I can't see any possible reason why any respectable persons should object. As far as I am concerned, the police are at liberty to take my fingerprints three times a day as long as I live.

THE AIR STOWAWAY
 One stowaway got what was coming to him—in the Kamov.

which has just completed his flight across the ocean. They left him locked up in the dark and are sending him back to Germany on the first boat. The pity is that a newspaper syndicate always bobs up to reward these thieves for their dishonesty.

interviewer the impression that he learned to throw a riatu out in the alley behind the livery stable.

DRUG ADDICTS BEING HUNTED

Nine Still at Large After
Spadra Rioting

Four Arrested Following
Flight from Hospital

Officers Expect to Capture
Others Today

A large force of deputy sheriffs, augmented by police officers and volunteers from numerous neighboring communities, last night were combing the countryside for the nine drug addicts who escaped last Sunday from the State Reformatory Hospital at San Quentin.

Up to a life or a death had been reported, but authorities in charge of the pursuit declared they expect to close in on the fugitives today. It is believed the men are headed for Los Angeles or its immediate vicinity, and with this in mind local police were ordered to keep strict watch for them.

The nine accused are: Herbert C. O. M. Brown, 35, committed from Santa Clara county March 14, 1929.

Mander Polpovic, 38, committed from Santa Clara county April 22, 1929.

Frank Sney, 32, committed from Los Angeles March 12, 1929.

Frank Young, 31, San Francisco, committed July 12, 1929.

San Diego, August 1, 1929.

Melvin Conner, 30, committed from Kings county June 14, 1929.

Clarence A. Smith, 27, committed from San Francisco, July 11, 1929.

STAY OF OUTBREAK

The outbreak started soon after the "lights out" order, the rioting spreading from ward to ward until the hospital authorities were forced to call for help from two sheriff's detachments.

Arrival of deputies soon quieted the rioters, but not until threats to fill the entire place with tear gas bombs were made by the officers.

The outbreak was caused, it is stated, by the intense craving for narcotics on the part of the inmates, but they were not successful in reaching the hospital stores.

Earl E. Jackson, director of institutions for the state of California, issued the following statement today, following an investigation:

"The purpose of the state law dealing with the narcotic situation, as regards treatment of addicts, never intended that state institutions of this character should be penitentiaries; that is to say, that patients should be kept in and kept in confinement. It was intended that these should be honor institutions and that the state should be committed to the care of the addict, relieving themselves of this dreadful craving for drugs."

"In practice we have found that the main cause of our trouble, especially in the matter of many escapes recently, has been due to the action of the courts in sentencing to these institutions felons who have the drug habit, but who should have been sent to penitentiaries because they are dangerous."

"Persons who really desire to rid themselves of this habit give us no trouble at all."

WARNING GIVEN

Captain of Detective Harry Seeger, in charge of the police, issued a warning to all persons in Los Angeles and vicinity to be especially alert to the unusual danger of hold-ups as the result of the escape of the addicts. He said many of the fugitives are well known to the police and criminals and declared they are likely to come here and resort to acts of desperate measures in their craving for drugs.

THE LANCER

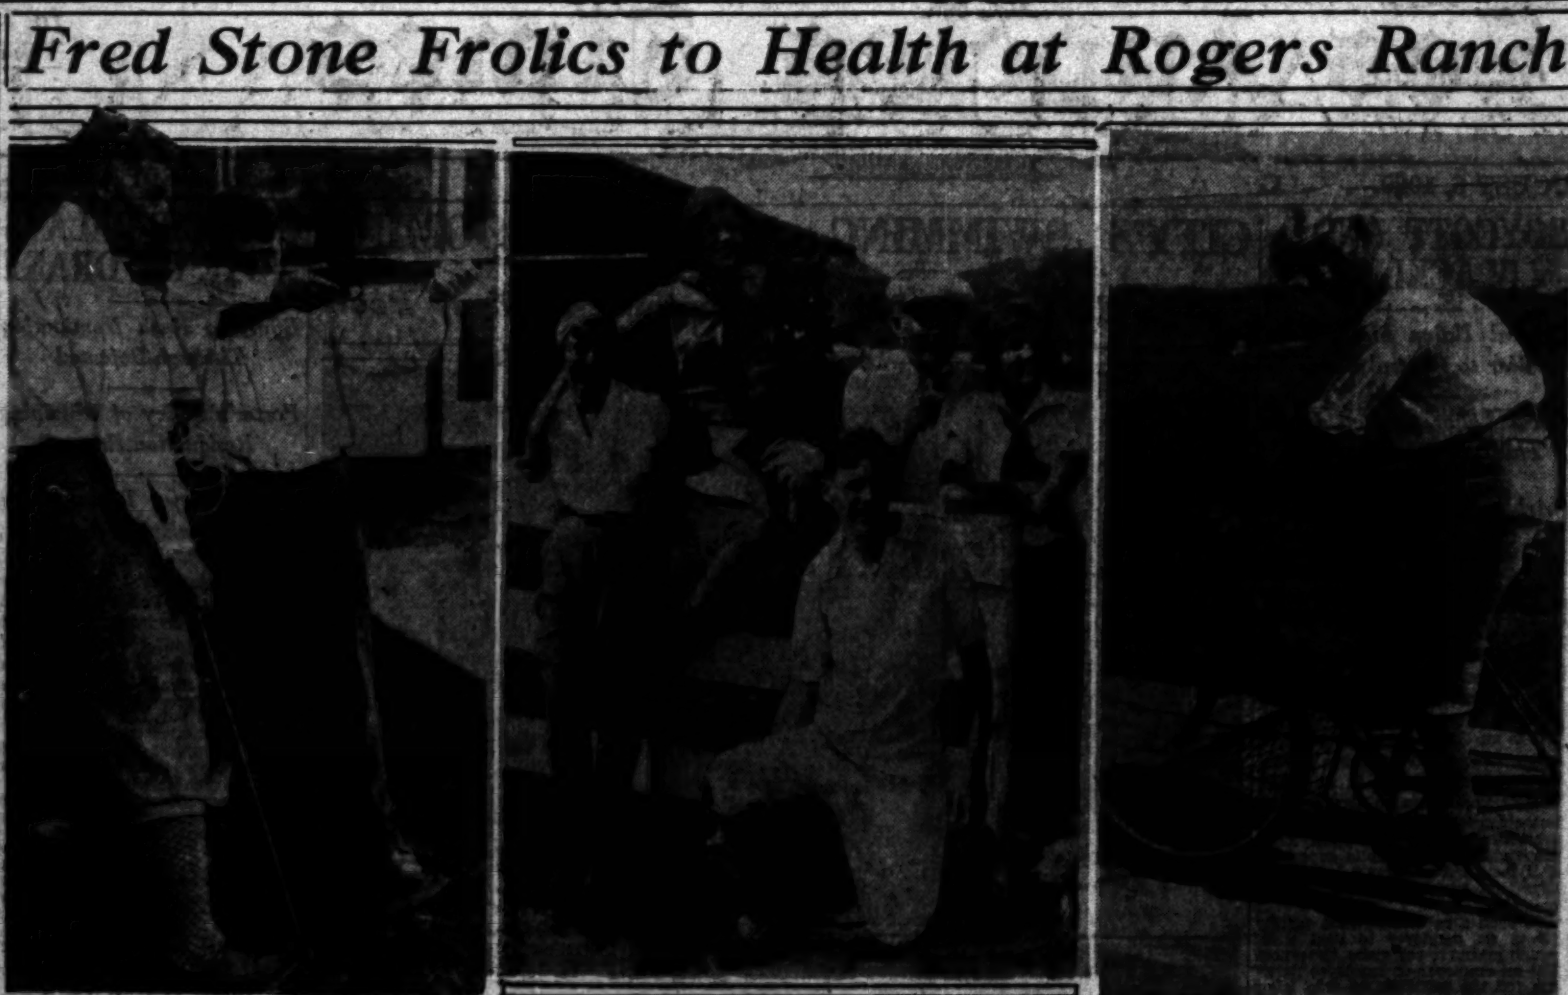

(Continued from First Page)

He is one of the few real "stock hands" among the cowboy movie actors. There are very few cattle-men now living with his wide experience with herds. He had his apprenticeship on the Oklahoma ranges and worked with stock in Africa and pretty much all over the world. That old lasso which punctuates his stage jokes has settled over many a steer's horns.

STREET OPENING ASKED

A petition asking for the opening and widening of Garden avenue at a width of sixty feet between Glenhurst avenue and Fletcher drive, was filed with the Council yesterday and referred to the City Engineer and Street Opening and Widening Committee.

Fred Stone Frolics to Health at Rogers Ranch

PANTAGES TRIAL DATE DESIGNATED

Woman to Face Court on
September 2 Accused of
Murder in Crash Death

September 2 was fixed yesterday by Superior Judge Aggeler as the date for the trial of Mrs. Lela Pantages, wife of Alexander Pantages, wealthy theatrical man, on a charge of the murder of Jura Nakamoto, Japanese, as the result of an automobile accident. The trial will be conducted in Department Twenty-two of Superior Court before Judge Hardy.

The murder charge was filed against Mrs. Pantages because it is charged that she was driving her automobile while intoxicated at the time of the crash.

According to testimony given during the woman's preliminary hearing, she had driven her automobile into another motorist's car in a collision which had killed Nakamoto.

When Mrs. Pantages appeared in court yesterday she waived time for plea and entered a plea of not guilty, demanding an early trial.

BUSINESS STUDENTS
TO HEAR LECTURES

Foreign trade classes of Woodbury College will be addressed today by Col. James H. Clegg on "Trade Possibilities of the Philippines." Col. Clegg, retired officer of the United States Army, is a veteran of the United States Army and World war, serving in the islands several years. Higher secondary students will hear a talk on "Income Tax Procedure" by Eugene M. Berger today. Mr. Berger is head of E. M. Berger & Co. He will discuss changes in the income-tax laws during the last decade.

HEAVY BAIL SET FOR COHEN

Bond of Assembled Dope Ring Head Increased to
\$85,000 at Preliminary Hearing

Hymie P. Cohen, asserted by Dist. Atty. Pitts to be head of the narcotic ring in Los Angeles, must remain in jail to await trial by Superior Court unless he posts \$85,000 bail. Municipal Judge Stafford ordered yesterday at the conclusion of Cohen's preliminary hearing on narcotic charges. At the request of Dist. Atty. Blalock, Judge Stafford increased Cohen's bail on the narcotic charges from \$40,000 to \$85,000. He also is facing trial for violation of the gun law under \$10,000 bail.

Blalock concluded the State's case against Cohen. He did not know at the time what it contained, she said. Blalock established through Detectives Tom O'Brien, Otto Schell and R. A. Phillips that the trunk contained narcotics which Mrs. Mary Lawrence purchased from Cohen. After moving the morphine from one storage company to another, Mrs. Lawrence finally sent it to the Cohen residence to be distributed to peddlers, she declared.

BOY AVIATOR FALLS IN JAIL

(Continued from First Page)

on a ranch near Escondido, he said. They stayed at the ranch all night, they told the police, and in the morning tried to get the ship into the air again. When they got up about seventy-five feet, according to the story, the ship suddenly crashed. The wing was broken off, the propeller snapped and the fuselage was crushed. Morrow suffered a broken nose and an injury to his eye.

The boys then went back to Compton via automobile and Pacific Highway.

Twenty, the owner of the plane, lives at South Gate. W. A. Smith of 2115 East 28th street, Long Beach, has a part ownership in the craft.

The case will come up for hearing Wednesday before Judge Aggeler at the court in the morning. The case will come up for hearing Wednesday before Judge Aggeler at the court in the morning.

CITY SWIMMING POOLS ACTIVE

(Continued from First Page)

ments, are provided for each pool and the water is kept at a temperature of 75 degrees, as is required by the State Health Department. It usually is found that the water is kept at a temperature of 75 degrees, as is required by the State Health Department.

Among other things, safety measures are considered of primary importance in the operation of the pools. Persons are qualified as beginners when they can swim seventy-five feet and are recognized as swimmers when they can swim 100 yards through the water, dive from the surface and use the back stroke. Inexperienced swimmers are tagged with what is known as "safety tape" so that additional attention may be given them by guards. No person is allowed to swim three times the width of the pool is permitted in deep water and such advice as not to enter the water within one hour and a half after eating falls under the city's provisions as a regulator.

Last year it cost the city 7 cents per swim above the pool's cost of operation, but the money was considered well spent, said Nichols. So highly do the various communities value the pools that some have gone so far as to make a special agreement for their construction, he said.

ROAD DELAY PROTESTED

The Harbor District Chamber of Commerce yesterday filed with Council a protest against further delay in the construction of that section of Sepulveda Boulevard which runs through the hills. The matter was referred to the Public Works Committee.

IMPROVEMENTS SOUGHT

Property owners yesterday filed with the Council a petition for the improvement of Towne avenue, between Florence avenue and Seventy-sixth street. This was referred to the City Engineer.

BOYCOTT AND BLACKLIST ON COUNCIL DELAYS VOTE ON DRAKE

(Continued from First Page)

regardless of the fact that the Mayor is free to accept it at any time that he sees fit. To my mind that is evidence that the Mayor himself had doubts as to Mr. Drake's qualifications. If this procedure was commonly followed the Mayor would have it in his power to remove commissioners at any time without reference to the Council, thus depriving this body of the right to pass upon removals as well as appointments. Think I believe, would be a violation of the spirit, if not of the letter, of the charter.

The controversy over Mr. Drake's attitude on the surrender of the Permanent Labor Union Charter in 1919, I believe, makes his appointment to either the Fire or Police Commission unjust, and not for the best interests of the city. Should his name be proposed for some other commission without his resignation being on file in advance of his service, I should not oppose it.

ROME BANTERING

David Kennedy referred to William's "policy" of saying that he isn't intimidated by "a small or a large newspaper" and declared that he doesn't care what the "Times" has stood for years for the things I can't believe are American in principle.

Mr. Kennedy has approached me on this matter except a few of the Mayor's friends, and I want Mr. Williams to understand that I am not a "policy" man. Mayor Porter is "true blue," said Jacobson, "but he can make mistakes. I recall those unionizing efforts in the fire department, but let me hope the past can be forgotten. But I am opposed to this resignation matter. I believe the Mayor can find men big enough to accept the position without getting their resignations in advance. I want to know about this resignation."

Mayor Porter said yesterday that he will take no action in the matter of the Drake nomination. He was asked what he will tell members of Council in the event they ask him about the resignation, and he replied: "I'll cross that bridge when I come to it."

Last week he told five newspaper reporters, covering City Hall, at various times, that he had Drake's resignation.

The Developers' Association of Los Angeles yesterday made public a letter to Mayor Porter and members of Council supporting the nomination of Drake.

STORM-DRAIN EXTRAS RULED UNASSESSABLE

Charges of \$6000 and \$300 for additional work in the construction of the Hancock storm drain, Section 2, cannot properly be placed against the assessment district, the Board of Public Works was advised yesterday in an opinion submitted by City Attorney Werner.

The opinion was written by Deputy Neal. The additional excavation work was made necessary because the filling of Vermont avenue was completed before the contractor could get to the work of constructing the storm drain.

ODE SOUGHT BY UNIVERSITY

In connection with the centennial anniversary of the foundation of the University of Southern California, which takes place in 1929, announcement is made of the inauguration of the competition for a university ode.

The competition, according to Dr. Allison Gaw of the faculty, will fall into two stages. The opening competition will be for a poem of the ode type which shall have intrinsic literary worth and at the same time lend itself effectively to choral treatment. The winning poem will be published, and a second competition immediately inaugurated for a musical setting for the poem as chosen.

PRODUCTION MEET

(Continued from First Page)

producers representing the Association of Motion Picture Producers and the Actors Equity Association to arbitrate the demands being made

for the placing of "Equity" shop in the film industry was conducted yesterday, but no announcement was forthcoming from either side as to the results accomplished.

Through Fred W. Weston, secretary of the producers' association, a statement was issued in which it was said that there had been a meeting yesterday and that a third will be held today. The first meeting was held Friday and was brought about as a result of a letter sent the producers by a committee of actors players.

Frank Gilmore, president of Equity, who will be the actors' representative, and Frank Turner, attorney, is meeting the producers. He also intends to make any comment as to the progress of the conference.

The producers were resistant again yesterday to discuss the negotiation of a new contract with Equity. It was generally believed in Hollywood yesterday the producers' attitude was to compromise Winfield Sheehan from the Fox organization, Jack Warner of Warner Brothers, Joseph P. Kennedy, Paramount, with the possibility of Lewis B. Mayer of Metro-Goldwyn-Mayer, who has returned from the East, may act in future meetings.

No inkling has been given as to how many meetings will be arranged for the future or whether it is the intention of the producers to bring about recognition of Equity.

RICH INVENTOR'S WIDOW MISSING

(Continued from First Page)

"When I talked to the South Pasadena," said Wakeman, "he admitted taking Mrs. Kirk to the resort, but declined to tell me where she had gone."

At the time of her disappearance, the widow is asserted to have had \$2000 in cash in her handbag.

She is described as five feet in height, weight about 130 pounds, with white hair and blue eyes.

WEDDING WILL UNITE PROMINENT FAMILIES

**MRS. BUSCH
WILL MARRY
NEXT WEEK**

**Society Woman to Wed
Fred Le Blond, Jr., License
Notice Reveals**

Fred Le Blond, Jr., and Mrs. Ruth Gordon Busch, both members of wealthy and socially prominent Los Angeles families, had notice of intention to marry yesterday afternoon and announced the ceremony for the 14th inst. Mrs. Busch said last night the ceremony will be performed at the home of her parents at 385 South June street by Dr. Hugh Walker of the First Presbyterian Church.

Mr. Le Blond is a real estate operator and a member of the Bachelor's Club, the Los Angeles Country Club, the University Club and is a graduate of the University of California. The couple will follow their wedding with a six week's motor tour of the northern section of the State and will make their home in this city.

Mrs. Busch is the former wife of A. Hays Busch, Los Angeles real estate operator.

**BROMLEY'S
NEW PLANE
IN MAKING**

**Greater Tacoma Duplicate
of Ship That Crashed in
Take-off of Tokio Hop**

Two crews of workmen started construction last night on a new \$25,000 low-winged monoplane at the Lockheed Aircraft Company in Burbank, for Lieut. Harold Bromley who intends to make a nonstop flight from Tacoma, Wash., to Tokio.

Despite his recent crack-up at Tacoma in his monoplane City of Tacoma, Lieut. Bromley expects to have the second plane, the Greater Tacoma, in the air within ninety days and make another attempt to cross the Pacific.

The plane under construction will be a duplicate of the smashed plane, except for a few minor changes, among these being a new position for the gasoline tank, through which gas flew and blinded Lieut. Bromley on his attempted Tacoma take-off.

Instruments, metal fittings, radio equipment, gasoline tanks and the 450-horsepower Pratt-Whitney Wasp motor of the ill-fated ship all are in good shape and will be used in the new plane.

Veterans to See Pilgrimage Play

Every disabled veteran able to leave the National Soldiers' Home at Sawtelle will see a performance of the Pilgrimage Play in Hollywood before it ends its engagement the 31st inst., according to an announcement by Manager Sparks Berry.

ARIZONA SENDS SOME HOT AIR

**Bottle of It Given to Mayor
Via Plane to Improve
Summer Climate**

The Phoenix (Ariz.) Chamber of Commerce engaged in some good-natured chaffing yesterday when the Standard Airlines delivered to Mayor Porter a tightly corked bottle of Arizona ozone.

"The One Sale of the Year" AUGUST CLEARANCE "The One Sale of the Year"

BROADWAY • HILL • AND • SEVENTH • ONE • O'CLOCK • SATURDAYS

BULLOCK'S BASEMENT STORE

Clearance Dresses \$7 and \$11

—and if it were possible to tell you just what a saving these August Clearance Prices represent in actual dollars, it is not at all improbable that the numbers would prove all too few for the many who would be waiting for the doors to open—Why there are

Dresses in Clearance at \$7
—that are style right in every detail—illustrated at right—are two of the styles for Fall or later wear—Long sleeve and sleeveless dresses made of attractive Prints and Plain color silks—Even some Ensembles in this Clearance at this much under regular price of \$7—And a

Clearance of Dresses at \$11
—that are suitable for all wear—at a price that should warrant coming a long ways to share—so great the saving—and in addition to these Dresses that have been reduced from Bullock's Basement Store's own high priced lines are

Dresses purchased at a Concession
—that makes possible this Clearance price of \$11—an expression of appreciation from a well known manufacturer with whom Bullock's Basement Store places large orders throughout the year—two of the dresses are shown at the left—there are scores of others just as unusual in this Clearance at \$11

Clearance Higher Priced Coats at \$11

—Coats that have been taken right from regular lines at higher prices—a quick Clearance should be effected at this low price of \$11.

Styles that have proven the season's most popular sellers—made of medium and lighter weight coatings in tans, grays, blues, greens and attractive color combinations—Many are Crepe lined—

Just three of the styles illustrated and there are many others—some of which are one-of-a-kind—14 to 44 sizes in the assortment at this much less than regular price—for Clearance—at \$11

Clearance Women's Tub Frocks and Tub Ensembles at \$2.65

—A Clearance that is a Clearance in every sense of the word—higher priced lines from Bullock's Basement Store's own stocks at much less than regular prices.

Two-piece Wash Dresses and Ensembles with full length Coat
—as well as many dainty one piece frocks—Pique, Broadcloth and Batiste—14 to 46 sizes—a quick Clearance should be effected at this low price of \$2.65—

Rayon Flat Crepe Underwear, \$1.50

Teddies, Panties (regular and extra sizes) and Step-ins made of lustrous Rayon Flat Crepe, plain or lace trimmed—2400 garments all told secured to feature in this August Clearance, offering at the special price of \$1.50.

Women's New Felt Hats, \$2--Clearance

Purchased very advantageously and priced very close—Felt Hats of outstanding value—at \$2—Dozens of becoming styles for matrons, young women and college girls—21 to 24½ inch head sizes in black, white and the new Fall colors—A Clearance feature value—at \$2

Clearance Boys' 4-piece Suits at \$6.95

—Suit values that should induce parents to anticipate future school needs—these Boys' Suits that Bullock's Basement Store secured to feature in this August Clearance at \$6.95—

Suits with coat, vest and two pairs of trousers—13 to 16 year sizes have the two pairs of long and the 6 to 12 year sizes have one pair of long and one pair of golf knickers—Some suits have double breasted coats and some suits have the Tattersol vests—Every suit a wonder value for this Clearance at \$6.95.

TRAFFIC SLIP-UP TRAPS RUM RING

Driving Rule Infraction of Suspect Starts Ball

Actions Lead to Arrest of Chief and Aides

Three Plants Uncovered on Cues Revealed

After seizing 1000 gallons of 110th liquor at three plants of an alleged rum ring, Georgia street vice squad detectives yesterday searched for the associates of three men arrested over the week-end and looked on liquor charges. The three are Edward C. Peterson, 32 years of age, a hotelier living at 1414 East Seventy-sixth place; Dwight T. Connor, 30, a chauffeur, 5522 Carlton way, and Clarence La Marr, 31, a musician, of 7165 Sunset boulevard. They were booked on charges of Wright Act possession and of suspicion of conspiracy to violate the Volstead Act.

The arrests and the uncovering of the three liquor plants were brought about accidentally. Detective Lieutenant Greaves of the Willshire division stopped Peterson for a minor traffic violation at Pico street and Crenshaw boulevard Saturday night. Greaves says Peterson threw away a bottle when questioned. This led to his arrest on liquor charges. Connor and La Marr were arrested late Sunday when they went to the police station to offer bail for Peterson. Detectives say that they are Peterson's delivery men.

Sergeant Rhomaker and Detectives Kearny and Mortensen interrogated Connor and La Marr, following which they made raids on four addresses. They reported that two women fled from one place, 1208 Ronda Vista avenue, which the police designated as the telephone call station of the ring. The detectives seized 250 gallons of gin and 100 gallons of so-called Bourbon at

BABY BURNING GUILT DENIED

Indicating that she will seek to avoid conviction on the charge of murdering her eight-month-old son by setting fire to its carriage July 8 last, Mrs. Josephine Valenti yesterday appeared before Superior Judge Aggeler and entered a dual plea of not guilty, and not guilty by reason of insanity. Judge Aggeler ordered her to appear for trial before Superior Judge Hardy on the 26th inst. Meanwhile, at her own request, Mrs. Valenti will be confined to the psychopathic ward of the General Hospital.

The Valenti child, Dominick, was burned to death at his parents' home, 800 Moulton avenue. A few hours after the woman was arrested she confessed to dropping a match in the perambulator, according to police.

Mental Test of Suspect Ordered

Drs. Paul Bowers and Melvin Row, psychiatrists, were appointed yesterday by Superior Judge Hardy to conduct a mental examination of Lee A. Wirt, charged with murder in connection with the shooting June 15 last, of his wife Frances.

Wirt's trial has been set for September 11. He is asserted to have shot his wife in their home, 2759 Marengo street, during a quarrel over the pawning of a diamond ring. Wirt was taken into custody some time after the shooting. According to a police statement of the case he admitted shooting his wife, but declared he did so because she was untrue to him.

FILM OFFICIAL WEDS ACTRESS OF SCREEN

William S. Holman, vice-president of Christie Film Company and general manager of Metropolitan Sound Studios, yesterday married Miss Bess Flowers Tate, a motion-picture actress. Superior Judge Yankwich performed the ceremony at the home of the bridegroom's mother, Mrs. Estelle Holman, 2119 Hyperion avenue. The bride has appeared in motion pictures for several years as Bess Flowers. She is a graduate of Carnegie Institute of Technology, Mr. and Mrs. Holman will reside at 1828 Fairfax avenue.

TWO WILLS COVERING ESTATE BEFORE COURT

Two wills of Mrs. Anna E. Bailey, who left all her \$30,000 estate to her son in one paper dated December 11, 1928, and all the estate except \$5 to Herbert Rembert of 8881 Harold way, in another, were before Probate Court yesterday. Mrs. Bailey, who was 80 years of age when she died, said she left her estate to Rembert because of his courtesy to her. The son filed a contest to the Rembert will, which was dated December 8, 1928.

OSBORNE PLEA LETTER DENIED

Loyola College Head Spikes Meadows Story

Convicted Promoter's Mother Again on Stand

Swindle-Case Trial May Last Two More Weeks

Called as a prosecution witness at the trial of George Rush Meadows, who is charged with a \$25,000 swindle in connection with an asserted spurious plan to obtain commutation of sentence for John R. Osborn, Father Joseph Sullivan, head of Loyola College, denied he ever had had any dealings with Meadows or that the latter had consulted him or obtained any letter from him recommending a parole of commutation for Osborn.

Meadows is asserted to have represented to relatives of Osborn that he had obtained a letter from Father Sullivan recommending to the Federal authorities that immunity be granted the convicted promoter. Father Sullivan was on the stand but a brief time, and was followed by Mrs. Edith May Osborn, mother of the promoter. Mrs. Osborn, who is declared to have put up most of the money the state charges Meadows received, resumed her testimony from Friday. She was undergoing cross-examination when adjournment was taken.

FOX CASTS TALKER WITH NOTED NAMES

You would never expect a title like "The Meal Ticket" to witness the attack of a swindle. Now you will. You will win. Fox has changed the title of Frederick Harbison's comedy drama of love in the blue-grass country of Kentucky from the above to what that organization considers a better box-office name. They have called it "A Song of Kentucky," when sounds to me like one of those mammy lyrics, but doubtless Fox officials know what they are doing.

The cast as announced yesterday will be an excellent one. Douglas Gilmore will play a sort of juvenile heavy, if you know what I mean, while Dorothy Burgess will play the role of a girl. Hedda Hopper will be dangerous woman as usual. Churchill Downs will provide the background for the racing phase of the story.

LASKY RE-SIGNS TWO DIRECTORS

"Lost God" is Postponed—May be Made in South Seas; Joe Wagstaff, Lois Moran to Co-Star in Fox Film; Carol Dempster to Wed Banker Next Week

BY GRACE KINGLEY

Two of Paramount's directors were given brand new contracts yesterday. They are Lasker Meadows and Marcel de Sano.

Meadows, as has been announced, will direct the talking picture version of Edith Wharton's novel, "The Children." In this Kay Francis, Frederic March and William Austin will have the starring roles. This will be his first effort under his new contract.

De Sano has been assigned a story, the title of which has not yet been announced.

William Wellman, who recently signed a new contract, is to direct "The Lost God." But this picture is to be postponed until next year, due reports the studio, to the fact that it is to be a much bigger undertaking than was at first contemplated. Additional time for proper preparation is needed.

The studio's young actor, Lois Moran, arrived in Hollywood yesterday for a visit.

Nothing, of course, is settled as yet, but Charlotte Merriam has just taken a singing test over at the Fox studio, which is said to have turned out very nicely.

The role for which Miss Merriam took a vocal test is a deep, dark, sultry, but we hear it is a good change of winning the part.

Miss Merriam recently made a comeback to the screen, appearing in the Warner Brothers' "The First Year."

PHONE LINE INTO PORTER NOT TAPPED

Check Fails to Discover Evidence of 'Lucky' Wire; Other Snooping Asserted

A complete check of the telephone wire system into Mayor Porter's office has failed to reveal evidence of "tapping," it was learned yesterday. The check was made Saturday afternoon and the wires were followed from the Mayor's desk to the main switchboard.

The search, it is understood, was made at the personal request of Mayor Porter, although on Saturday morning he stated that he did not suspect any tapping of his telephone, and did not care, as he said nothing over the wire he wished to conceal.

A Metcalf telephone engineer for the Board of Public Utilities, said yesterday he had received authorization to hire an expert to check all lines in the City Hall.

Rumor after rumor has run through the City Hall that there is a concerted program of eavesdropping going on. Building Manager Rodgers recently asked the Board of Public Works to employ two additional watchmen for the City Hall garage, as the result of the many complaints of cars being broken into and searched. When this situation was called to Mayor Porter's attention he said he believed the car-searching was merely petty theft, and not "liquor snooping."

Wife, Son Get Estate of Green

The estate of Albert P. Green of Pasadena, said to be worth \$200,000, was divided equally between his widow, Tina Eden Green, and a son, A. Vernon Green, Pasadena attorney, by terms of a will on file yesterday. Real estate worth \$120,000 is located in Los Angeles, Riverside and San Luis Obispo.

DISCARDED PAPERS HAVE FACE VALUE OF \$2,500,000

Face to face with the possibility of cashing in a paper fortune of more than \$2,500,000! That's the situation in which Malcolm C. Nason of 721 Rexford drive, Beverly Hills, found himself yesterday when he examined a chest of supposedly worthless papers belonging to his brother, who died ten years ago, and found them to be stocks and bonds in railroad, mining and land companies of fifty and sixty years ago.

Nason came into possession of the papers after the death of his brother, H. W. Nason of Redlands, who for twenty years, from 1870 to 1890, was a member of the New York Stock Exchange. A domestic servant by his brother called them to his attention. Bringing them to Los Angeles and tossing them in a corner of his garage he never had examined them until yesterday.

One of the certificates alone represents 100,000 shares of stock in the Unioncampagne Mining Company of New York, valued at \$25 per share. Other concerns, the stocks and bonds of which are included in the chest, are the St. Louis, Lawrence and Denver Railroad, Franklin Steel and Zinc Company of New Jersey, West Virginia and Kentucky Railroad and Coal Company, Wyandotte Consolidated Lead Company of Kansas, Phoenix Coal and Iron Company of Illinois, Ontario and St. Lawrence Steamboat Company, Des Moines Valley Railroad, Selins Grove and North Branch Railroad, Mississippi and Missouri Railroad, and Charlotte and Charlotte Consolidated Mining Company.

In event the documents prove worthless, Nason will exhibit them as curiosities in a local bank window.

BULLET MAKES FIVE HOLES

Boy Shot Accidentally by His Playmate Gets Variety of Lead Patterns

Five holes caused by one bullet were the injuries received yesterday by Lester Blumberg, 12 years of age, of 828 South Orange drive, when, according to a police report, he was shot accidentally by a 22-caliber rifle in the hands of his playmate, Lawrence Doby, 11.

The rifle, it developed, was discharged as the boy's right arm was flexed, the slug penetrating the forearm, the biceps muscle and then flattening itself against a rib. Police Surgeon Lopotich removed the bullet at the Georgia-street Receiving Hospital and reported Lester will recover. The Doby boy was not held.

PRISON FLIGHT EXCUSE DENIED

"Intolerable" Conditions No
Basis for Escape

Supreme Court Makes Rule
in San Bernardino Case

Suit Considered Blow to
Convict Discipline

There is nothing in the California criminal law that gives a prisoner in a penal institution the privilege to decide for himself just when conditions are sufficiently intolerable to justify him in escaping. This was the gist of an opinion handed down in Division One of the District Court of Appeals here yesterday. The case was that of H. Whipple, convicted San Bernardino county thief, his escape from the San Bernardino prison camp and his subsequent claims of unsanitary conditions and harsh treatment won him liberty a year ago.

Whipple was recaptured and tried on a charge of escaping jail. He was convicted and sentenced by Superior Judge Warner of San Bernardino county to San Quentin prison. A new trial was denied.

Later Whipple appealed from the sentence and order denying a new trial on the ground that conditions in the camp were intolerable and his treatment by guards was inhuman and brutal.

In denying the appeal the higher court held that "while authority exists, generally speaking, absolute necessity will excuse the commission of a crime, so far as the crime of escaping from jail is concerned, the authorities are in practical accord in holding that ordinarily adverse circumstances will not present such a condition as will support a legal excuse for effecting an escape."

"It is manifest," the opinion continues, "that to allow a prisoner to decide whether the conditions justify him in attempting to escape would be destructive of the necessary discipline which must be maintained in any well-ordered jail. The record fails to show that the appellant tried by lawful means to be relieved of the conditions complained of."

The opinion was written by Justice Houser and concurred in by Justice Conroy and York.

POLICE DEPARTMENT VETERAN SUCCUMBS

Thomas W. Miller, a member of the Los Angeles Police Department since November 27, 1908, died at his home, 2723 Brooklyn avenue, yesterday. He was stationed at the Central Police Station and had been on leave of absence since July 3. Funeral services will be conducted tomorrow at 3 p.m. from Vesper & Sons' funeral chapel at 1880 East First street. Interment will be at Forest Lawn. A police escort will be provided. Miller was 57 years of age. He leaves the following brothers and sisters: Mrs. Ida B. Elston, Mrs. Alma Harrington and Joseph H. Miller of Los Angeles and Elizabeth, Edwin F. and Bertha Miller of Cincinnati.

BOY HONORED BY NOTED SINGER Youth Will Sing at Christening Affair

Opera Star Recognizes Rival
Tito Schipa congratulates Billy Lennon on his singing voice. Schipa's daughter Liana is at his side and Evelyn Torrey, a friend, at his right.

In recognition of a voice which he declared is "most beautiful in tone and feeling," Tito Schipa, operatic tenor, yesterday invited a 14-year-old Venice boy to sing before an audience of celebrities at the christening of his daughter, Liana, in his Beverly Hills home on the 15th inst. The boy, thus honored by the world-famous artist, is Billy Lennon of 623 Victoria avenue, Venice.

The invitation was delivered the boy by messenger, shortly after he had lifted his voice in a rendition "La Colombine" to Schipa alone in the latter's salon. This performance had resulted in turn, from the suggestion of a friend that Schipa hear the lad's voice.

The christening of Baby Liana will be attended by film stars, including Douglas Fairbanks and Mary Pickford, as well as musicians, sculptors and painters, and will be recorded by Movietone news cameras. Billy Lennon is a student at Venice Polytechnic High School, and on Sundays works as an umbrella boy for a beach concessionaire.

CANADIANS WILL GATHER
The monthly meeting of the Canadian Society of Southern California will be held tomorrow evening at the Hollywood Roof Ballroom, 1649 Vine street. The meeting will be followed by a dance, to which all Canadian visitors, other British and their American friends are invited.

TRAFFIC DEATHS LISTED AT SIX

Cafe Man Drowns When Car
Plunges Into Bay

Two Water Board Workers
Killed in Canyon

Crash Injuries of Musician
Prove Fatal

Six traffic deaths were recorded in Los Angeles county yesterday. One man was drowned when his coupe plunged from an embankment into Alamitos Bay, Long Beach; two city employees were killed in San Francisco Canyon and a musician, died as the result of a crash in Sycamore Canyon.

At Long Beach, firemen and police worked in vain to revive Arch Sweetland, cafe owner, last night, when his coupe plunged from an approach of the State highway bridge into ten feet of water in Alamitos Bay. O. S. Thornton, 1151 Hellman street; Dexter Walters, 2203 Richmond avenue, Los Angeles, and William Evans, 27 Elm, Alta Vista, jumped in the water and released the body from the coupe. Sweetland was dead when taken out. He was 48 years of age and lived at 1255 First street.

KILLED IN PLUNGE
L. E. Fleming, 27 years of age, and Deane K. Kasey, 21, employed by the Los Angeles Bureau of Water and Power, were killed instantly early yesterday morning when the car in which they were riding rolled over a 200-foot embankment in San Francisco Canyon near Camp No. 1. It is reported.

Joe Rosen of 614 South Gates street, Los Angeles, owner of the automobile, escaped with slight injuries. An inquest into the deaths will be held at 1:30 p.m. today at the W. G. Noble funeral parlors, San Fernando.

Andrew Austin, 5, of 144 East Sixth street, died last night in St. Vincent's Hospital, of injuries received Sunday when he was hit by a truck while running across the street at Sixth and Main streets.

Juan Castillo, 22, of 1833 East One Hundred Nineteenth street, died today in Roosevelt Hospital of injuries received Sept. 26, 1924, when a truck he was driving collided with a street car.

Marlo Fox, a musician attached to the Paul Whiteman troupe, died at 1880 Vine street as a result of injuries received in an automobile accident on the Roosevelt Highway near Sycamore Canyon last Wednesday. It was reported to the coroner.

COMPANION INJURED
Joe Vernard, another musician and driver of the automobile, is in an Orland hospital with a broken arm. At the time of the accident the troupe was en route to Santa Barbara, where it was to give a concert. The crash occurred when Vernard's automobile went off the highway into the sand and then skidded across the pavement into another machine.

Six persons were injured on the Roosevelt Highway in the Malibu ranch late Sunday evening according to reports at the Sheriff's office at Santa Monica. O. O. Mays, 62 years of age, 205 East Glen Oak avenue, Glendale, and his wife, 32, sustained fractures of ribs and other injuries. John Lillian, Vincent and Becky Irving, who were with them in the car were slightly injured.

Dean Merrill Offered High Botanic Post

E. D. Merrill, dean of the college of agriculture, University of California, and since its beginning the head of the California Botanic Garden, has been appointed director of the New York Botanical Garden to succeed Dr. H. L. Britton who resigned after more than thirty years of distinguished service.

Whether Dr. Merrill will accept the appointment is still uncertain. The New York institution is one of the three great botanical gardens of the world, Kew and the great Dutch garden in Java being the others.

Dr. Merrill now is at Berkeley, conferring with officials of the university.

Plane to Rush Serum Shipments

The lives of several World War veterans in the Federal Hospital in Phoenix, Ariz., will hang in the balance this morning as a trimotored transport plane of Standard Airlines speeds from Los Angeles to Phoenix with a precious supply of hamostatic, tubercular hemorrhage serum.

A rush call from Phoenix to the local air line offices was received last night, stating that several patients in the hospital are in a critical condition and that serum is needed immediately.

Lieut. Paul E. Hinson, vice-president of Standard Airlines, will take the controls of the Fokker transport when it takes off on its schedule at 8 a.m. today, and will deliver the serum in Phoenix three hours later.

HOTEL CHAIN PLANNED Reopening of Strand First Link in Curtis Business Venture

The formal opening of the Hotel Strand on South Union avenue near Seventh street is announced under the management and ownership of Louis V. Curtis, well-known hotel man.

Mr. Curtis, who has operated hotels in New York, Arizona, Mexico, Guatemala, San Salvador and South America, recently purchased the Strand, which is the first of a chain of hotels he is planning to acquire in and near Los Angeles. Plans are now being drawn for a \$2,000,000 hotel of Italian architecture to be erected in this city, Mr. Curtis states.

The Strand has been completely redecorated and returned.

"This year I'm keeping our old car, as a second car, instead of trading it in."

My family is large enough to need two cars. This year I'm going to keep my old car instead of trading it in on the new one. Of course trading it in would make a difference in the cost of the new one. But that's outweighed many times by the convenience a second car will mean to us—and our old car is good for years more.

"I am enlarging my garage to make room for two cars. But that's a good investment in itself because it will increase the value of my property and make it easier to sell."

A used car is unused transportation

General Motors suggests that you keep your old car when you buy a new one. More and more families are doing it each year. That is a reason why the number of two-car families has jumped from 300,000 to over 3,000,000 in ten years. Used cars have years of unused transportation in them; years of satisfactory performance. And the GMAC low-cost plan of purchase makes it easy to pay comfortably for the new car while you enjoy its use.

Studio Makes Staff Changes

As a result of the resignation last week of Al Rockett as production executive at the First National Vitaphone Studios, C. Graham Baker, head of the story department, and Hal B. Valla, studio manager, yesterday were appointed as associate executives in charge of production activities.

Baker has been associated with Warner Brothers for the last six years, both as writer and scenario editor, while Valla was with the company as publicity director.

Baker, according to announcement, will be succeeded as head of the story department by Walter Anthony, until a short time ago head title writer at Universal.

Motorist Freed by Court Writ

Edward Macguth, Los Angeles motorist, sentenced in Municipal Court to ten days in jail for reckless driving, was given his freedom under \$250 bail on a writ of habeas corpus issued yesterday in the District Court of Appeals. The writ is returnable the 30th inst. in the Appellate Court, at which time Chief of Police Davis will be required to show cause for holding Macguth in the city hall.

According to Macguth's petition for the writ, he was sentenced to jail on October 3, last, by Justice Newmire and on October 13 was given a suspended sentence and probation. Recently he was rearrested on the strength of the original jail commitment, issued on October 8 for reasons unknown, he says.

When Ordering Your Training or Sport Plane Specify that it be Powered by Kinner

KINNER AIRPLANE MOTORS... America's Unchallenged Standard in the 100 Horsepower Field!

DEPENDABLE performance is the reason why Kinner stands unchallenged as America's standard 100 horsepower aircraft engine!

Indicative of Kinner performance is the fact that a Kinner-engine plane took 19 first places out of a possible 21 in the recent Kansas Air Tour! This record was achieved in spite of the fact that Kinner competed with engines of greater horsepower!

Such performance is the reason why 35 leading airplane manufacturers have selected Kinner motors to power their planes. Experienced pilots throughout America, enthusiastic over Kinner performance, are insisting that their planes be Kinner-powered!

This tremendous approval of Kinner engines has made it necessary to increase factory production to 250 engines for the month of August! And just as August production will overshadow July's, so will September's eclipse what is already one of the largest production schedules in the aircraft engine field.

"YOU CAN'T HORSE ME"

Declared Long Jim Colt of the Santa Barbara Polo Club to Hal Roach of the Uplifters Club when they met yesterday to talk over the arrangements of the Southern California summer low goal championship, which opens Sunday at Rustle Canyon Field, Santa Monica. Roach (left) will captain the Uplifters. Colt will skipper the Channel City four. Roach's pony seemed to enjoy the chat between his master and the Santa Barbara star.

POLO BILL ANNOUNCED BY BAKER

Uplifters Plan to Bring Three Teams Here for Summer Schedule

BY FRANK ROCHE

Summer polo was more firmly entrenched than ever in the front ranks of the Southern California sports picture following the announcement made yesterday by R. L. (Snowy) Baker of the Uplifters' Field. Continuing their program of presenting low-goal competition during the summer months that is on a par with any being presented throughout the nation.

At this time, the Uplifters have arranged games with Santa Barbara, a crack cowboy quartet and with the Eleventh Cavalry polo team from the Presidio at Monterey.

NAVY SWIMMERS MAY ENTER "TIMES" CLASSIC

Confident that a number of navy swimmers will want to take part in the event, the executive committee of The Times Pre-Olympic swim, yesterday wired to the athletic officer of the battle fleet, aboard the U.S.S. California, now at Bremerton, that wire or mail entries, aside from the regular blanks, would be accepted from members of the fleet.

MISS WILLS, PARTNER WIN ST. LOUIS, ATHLETICS SPLIT TWO

Net Queen and Edith Cross Overwhelm English Combination at Easthampton

BY TED VOSBURGH, Associated Press Sports Writer

EASTHAMPTON (N. Y.), Aug. 5. (AP)—By the scores of 6-3, 6-0, Queen Helen Wills of Berkeley, Cal., and her San Francisco partner, Miss Edith Cross, overwhelmed the English combination of Miss Betty Nuthall and Mrs. Phoebe Watson to win the doubles final in the women's invitational tournament at the Maudslayi Club today.

The same foursome will meet later in British women's doubles championship at Wimbledon a few weeks ago. But, for the first time since they have been playing doubles together, Miss Wills and Miss Cross "clicked" perfectly. Most impressive of all was the great performance of Miss Wills. Never considered remarkable as a doubles player, Miss Wills showed the same magic master of ball and racket that have made her undisputed queen of the single courts of the world.

Her service came smashing over the net with an irresistible power. Her drives carried a punch seldom seen in a woman's match and her opponents soon found that at the net Miss Wills was a tower of strength.

Miss Wills scored six aces in the five games. In every game Miss Nuthall showed she has not yet mastered the orthodox overhead service which she has endeavored to substitute for the antiquated underhand delivery she employed when in this country two years ago. In her three service games she served into the net.

UPSETS MARK PLAY IN MEADOW TENNIS EVENT

SOUTHAMPTON (N. Y.), Aug. 5. (AP)—A shock of surprises marked the opening of the annual Meadow Club invitation tennis tournament today. None of the seeded number, consisting of John Doe, Santa Monica, Cal.; Berkeley Bell, Austin, Texas; Fritz Mercer, Bethlehem, Pa.; Gregory Mangin, Newark, N. J.; and the Englishmen, W. H. Austin, J. E. Olin, Norman Farquharson and E. R. Avery fell by the wayside, but a number of unexpected results were written into the records. Dick Lench, the Los Angeles star who forced John Doe to three sets last week at Seabright, was defeated by Eddie

Chocolate to Fight Singer in New York

NEW YORK, Aug. 5. (AP)—The best "natural" match of the New York outdoor season was signed today when Al Singer, Bronx junior light-weight, and Kid Chocolate, sensational Cuban bantam-weight, agreed to box, twenty rounds the 28th inst. at the Polo Grounds. The New York favorites agreed to weigh 128-134 pounds or less.

BRUINS ADD TO NATIONAL LEAD

Wilson Drives English in With Winning Run

Veteran Slugger Poles Hit Off Ancient Jinx

Wrigley Athletes Hang Up Fifth Straight Win

CHICAGO, Aug. 5. (Exclusive)—Hack Wilson is no longer the guest of the terrible Danny Vance. A single went tearing off the bat of Mr. Hack with a mate waiting on second in the sixteenth round today and the mate counted the run which defeated the Brooklyn Robins in a sensational battle, gave the Cubs their fifth straight in their new winning streak and moved them one game farther from the Pittsburgh Pirates, who are pursuing them in the pennant race. The score was 9 to 5 and the interval between first and second place now is seven and one-half games.

Opening what proved to be the final round, English hoisted a fly over the head of Herman, who had waited just long enough to lose the ball. He had made a sensational catch of Stephenson's short liner and kept Chrysler from scoring after a double in the fifteenth. But those things even up, Hornsby fanned for the second straight time.

PICKS ONE OUT Then up came Hack, the man who until today had fanned eight straight times against Vance. Wilson got his courage back when in the fourteenth he almost broke it up with a drive placed off the top of the fence by Babe Herman. And to prove he wasn't afraid Hack waited until he showed his nemesis in a hole and then bounced a hit straight over second, sending English across with the knockout run.

The game started as a duel of pitchers, bogged down into a startling slugging match toward the end of the regulation number of rounds and then tightened back into a man-synthetic-man affair when Guy Bush and Vance were summoned into the fight. Both were rushed to the front in the eighth, when mates fell into trouble.

For a large part of the thing the Cubs were held as helpless.

Southern California Yachtsmen Set For Annual Regatta at Santa Barbara Saturday

LOCAL BOATS TO RACE NORTH

All Classes Will Compete in Yearly Events

Yachts Will Continue on to San Francisco

Great Races Are Expected to Feature Meet

BY THE SKIPPER

Just one week from today the Southern California championships of pleasure-boating craft will vie for honors at Santa Barbara. With one of the largest entry lists from Southern California waters, the ninth annual championships should surpass any previous regatta held in local waters.

On Saturday noon boats from the Newport Yacht Club and the California Yacht Club will leave the outer harbor on the first leg of the race to Santa Barbara, the ninth annual regatta here boats will race on up to San Francisco, according to present plans. It will be a question as to whether the boats can save their time against the smaller craft. With the big sail spread there is almost a cinch for something to carry on her, the wind signal, and will be driven harder, but then she is slower to rig.

It's a tough pull from Santa Barbara on up the coast and the small boat is going to find it tough to drive the way she should. However, it will be very interesting to watch the results.

Meanwhile will be quiet at Santa Barbara, with the finish of the Los Angeles to Santa Barbara Regatta in the harbor there. The board of regatta will meet Monday with general inspection in the evening. Starting at 12:30 Tuesday, six fleets of boats will take the water. The regatta will be according to plan, not rigging.

In the six-meter class, Tommy Lark's Harpoon and Arthur Boush's Maybelle are scheduled to battle it out to a finish. Local yachtsmen are picking Lark to turn the tables on the Maybelle, six-meter champion last year. The Harpoon is in excellent shape and will probably be the general favorite in spite of the fact that she has had but one race this summer.

In the six-meter class will be Lark's Harpoon, Boush's Maybelle, and Lark's Maybelle. Al Rogers's Synovio, W. H. Robb's Maybelle, and Lark's Maybelle will be a three-way series.

Then again, Rogers's Synovio must be given plenty of consideration. According to Al Rogers his boat is in splendid shape and while he isn't predicting anything for her it would be no great surprise to see her push both the Harpoon and Maybelle.

The eight meters will find Owen Churchill's Babe and Stuart Mordiah's Mondidiah. Mondidiah will have to be the second favorite in Churchill's craft, winner of the King of Spain trophy. Ted Constant will sail her. The Swedish boat was expected to sail at Santa Barbara, it is learned. Hans Weaver had planned to enter her, but she will not be ready.

All in all it looks like the ninth annual Southern California championships are going to be mighty interesting, with keen competition scheduled in most of the events.

AGUA CALIENTE AFTER CONTEST

(Continued from Ninth Page)

Sharky bout can be held in New York because of the State Boxing Commission's attitude toward Schmelling and the contract with his former manager, Arthur Dempsey.

Dempsey said he is not sure that the Agua Caliente interests mean business on the fight, but if they are serious he will do his best to make the match.

He said he is leaving within a few days for his mother's home in Salt Lake City, and from there is going to Chicago.

He is stood up for another vasodilator engagement opening at Chicago the 15th inst. and when that is concluded he will rejoin the old Coliseum in the Windy City. This has been re-furbished and brought up to date, and Dempsey hopes to stage some big fights there this fall.

MAY COME BACK

Dempsey does not deny an intention to return to the ring himself, but says positively it will not be this year.

When the heavyweight situation is cleared this summer and some outstanding contender—or synthetic champion—developed he will return to the lists next year, he says.

Yank Netmen Win and Lose in Dominion

VICTORIA (B. C.) Aug. 5. (P)—American players won and lost in the first round of the British Columbia tennis championships here today. Results included: Men's singles, Jerry Bartosh, Los Angeles, defeated Ralph Berrell, Victoria, 6-0, 6-0. George Heilman, Oakland, defeated Stanley Wright, Victoria, 6-1, 6-3.

ordered by the State Boxing Commission. The boxing commission ruled Friday that Sharky must fight Charles Phillipsman for a fight, has summer, which Sharky refused to carry out because of illness.

CADETS TO PREPARE AT PALO ALTO

West Pointers Will Train for Tilt With Stanford on Rival's Gridiron

SAN JOSE, Aug. 5. (P)—The football team of the United States Military Academy at West Point will train at Palo Alto for its game with Stanford University in December. This decision was announced here today, and was made on the recommendation of "Bill" Jones, Army coach, and Maj. Phillip Fleming.

WILLS, CROSS CAPTURE TILT

(Continued from Ninth Page)

three double faults, two of these in succession leading directly to loss of the fourth game.

Miss Wills's service was pierced only in the fifth game, when she and her partner temporarily lost the range of net and base line, but Mrs. Watson also dropped her service game leaving the Americans in the lead at 4-2.

The English girls made a brave attempt to avoid a white-washing. In the second set, when they carried the fifth game to deuce repeatedly, but Mrs. Watson's service finally was pierced and the Americans won to take the final game with a succession of cannon-ball serves.

GLADMAN LOSES

Miss Gladman, a slim attractive blond, was not strong enough off the forehand, to cope with her English opponent in the singles. Mrs. Shepherd-Barron, a dark-haired veteran who had played on two previous Wimbledon Cup teams, was easily the superior unit in the second set she unconsciously began playing to the Californian's backhand, her strongest stroke.

Miss Gladman came back from 1-4 to square the match at 2-2 but could not halt the English girl, who went on to take the next two for the match, making three placements in the final game.

SHARKY REFUSES TO FIGHT CHARLES

DETROIT, Aug. 5. (P)—Two developments today made it almost certain the proposed Sharky-Schmelling bout will not be held in Detroit next month, as tentatively planned by Madison Square Garden Corporation and Olympia Arena.

Floyd Fishman, Detroit, the most announced today that Jack Sharky had flatly refused to meet Pierre Charles here as

Rancho Country Club Play Topped by Aaron

Boys Resume Golfing Tests at Two Courses

BY THE SKIFFER

John Miller, Ben Gabriel bag today, and Anne Sheehy, Wilshire Country Club, ball chaser, shot via at Sunset Fields yesterday to lead caddies in first eighteen holes of the club's caddy golf championship. Ray Mangrum and Leo Henry turned in 72 cards to finish in second place.

The tournament was held over two lay-outs and 100 caddies were entered. One hundred and one played at Sunset Fields and seventy-nine at the Rancho Country Club course yesterday in quest of the cash prizes and trophies, which have been donated by Ben Faby and other Southern California sportsmen.

V. H. Aaron, led the Rancho field yesterday with a low gross of 72. Ben Gabriel, who is well acquainted with the Rancho course as he worked there for some time before joining the Rancho caddy staff.

The first low 84 and all ties will participate in the final round tomorrow. The final thirty-six holes will be played over the Rancho Country Club layout.

ATHLETICS AND BROWNS SPLIT

(Continued from Ninth Page)

In the seventh and eighth innings of the first game, four singles gave the Browns two runs in the seventh and eighth.

Both Lefty Grove and Rip Collins, starting pitchers in the second game, were hit hard. Grove gave way to Barnhart, who was knocked out of the box by a three-run rally in the eighth.

At Simmons his twenty-fourth homer in the first inning of the second game. Scores:

First game: ST. LOUIS, 10; PHILADELPHIA, 7.

Second game: ST. LOUIS, 10; PHILADELPHIA, 7.

Third game: ST. LOUIS, 10; PHILADELPHIA, 7.

Goldie Hess Favored to Defeat Wildcat Carter in Olympic Ring Attraction Tonight

RABBIT PUNCHES

PAUL LOWEY
ATHLETIC WEALTH UNKNOWN
MEXICO'S first national Olympics next January will open the eyes of that country to the great undeveloped athletic talent of its young men. Times will show there are more good sprinters and hardier than bull stabbers below the Rio Grande.

Their ability is latent because it has never been given a chance to develop. The showing of boys of Mexican birth in the recent junior Olympics shows what they can do with proper training.

There have always been good Mexican fighters in Southern California. With no background of inherited talent they have developed quickly and have become noted for their great hitting power. Herrera and Rivera and more recently Sal all were good punchers. Bert Collins was the exception of the topnotchers. He was a boxing flash.

Years ago Los Angeles High School, then the little old school on the hill, had a Mexican sprinter named Rubio. He was a consistent 100 man in the days when the late Ted Geisler and Tom Coleman were also star sprinters for L. A. High.

There have been a few good Mexican baseball players and football players. All were developed in this country. Those who have been given training have proven adept.

A few more national Olympics in Mexico and there will be fewer revolutions, fewer bull stabbers—and more star athletes.

MACK IS HOPEFUL
CONNIE MACK says his Athletics can pile up none too big a lead in the American League race to suit him.

The family having been on for nearly fifteen years for Connie you can't blame him for his sentiments.

At the same time it is hard to picture anything but a wholesale collapse of his pitching staff and a terrific slump of his star hitters keeping Connie's boys away from the American League flag this year.

As the Athletics hit the first lap of the August stretch they find themselves eleven and one-half full games in front of the New York Yanks, the world's champions.

That is margin plenty for the Athletics of 1929, just as it would have been for the last great pennant machine Mack broke up fifteen years ago because he had too many stars on the club and thought he could assemble another team just as good in two or three years' time.

The team Mack knows better now. It took him fifteen years to turn the trick.

Championship clubs are not made or born in a day.

Even the Cubs which have been in the making for several years and were due to be "in" for the past two or three years are just finally making the grade in the National League.

CUT-THROATS ABROAD
THERE should be a deal of interest in our own Coast League clubs cutting one another's throats.

San Luis Hollywood Stars, only half a game behind the league-leading Seals, play the Angels on the home lot. Wrigley's boys are one two and one-half games back of the Stars.

In the North the Missions, one game back of the leaders, hit San Francisco.

Most anything is likely to happen with this interleague strife going on along the front, but the Missions and Stars seem to hold a slight edge as a result of the previous week's results—Stars 4 games to San Francisco's 3 and Missions 5 games to Los Angeles' 1.

MISSING ONE FIGHT
MR. ALAN GOULD of the Associated Press reports there is only one deputy firing in the fistie sectors this week.

However, from what I glean of Wildcat Carter's leather throwing and the previous public performances of Goldie Hess there should be plenty of excitement at the Olympic site this evening.

Carter, coming here from the Northwest heralded as the best performer, not excluding Dode Berot, ever developed in that region.

And Berot was plenty good until he ran afoul of the hard-hitting Bobby Barrett.

Carter is said to be a busy performer with uncanny speed of foot and a hard sucker.

Hess has always been an energetic boy, and his victories over Santiago Zorilla and Tod Morgan with a Bud Taylor draw sandwiched in between have established him.

Further interest in tonight's bout is seen in the fact that the winner has a chance to cut in on Eddie Mack's quest of a title bout with Tod Morgan, the 130-pound champion.

week, will be introduced from the ring.

Dempsy says that Godfrey is the greatest heavyweight in the world today.

Chisox Hold August Sale of Players

CHICAGO, Aug. 5.—The annual August clearance sale were held at Comiskey Park today, and at the close of business this afternoon three White Sox players found themselves in custody of new owners. Francis Sigafos, utility infielder, received from Detroit via the waiver route a month ago, was sent back to Portland, Or., his original club, on option. Ted Blankenship, the overgrown right pitcher, who was turned back by Toledo, as of no value to them, was reshipped to Montreal of the International League. Another right pitcher, Danny Dugan, was on his way to Minneapolis of the American Association.

STARS, ANGELS TANGLE TODAY

(Continued from Ninth Page)

Vitt. Clyde Barlow, the well-known change-of-pace artist, will be on the mound for the Angels.

San Francisco home from San Francisco last Saturday to rest up for his effort in today's opener.

So it will be: Lelivelt vs. Vitt. Barlow vs. Shellenbach.

Angels. Shellenbach. If that doesn't look like an attractive baseball dish to you, the best weather's got your appetite down.

Hollywood, who knocked over the Seals in four out of seven games last week to crawl up to within a half-game of the league-leading San Francisco, will be the home club this series.

Los Angeles dropped five out of seven to the Seals in the first series last week and is in fourth place, three games out of first place.

The Angels, who are in the batting slump for the most part of the season series, but they came out of it with a bang Saturday and Sunday, so you can count on the Cherokees doing their part up at the plate this week.

MY BALL HARD
The Seals hit the ball hard and often against San Francisco pitching, only two of the Red Birds here today, yielding only three scattered hits.

Joe Haines was pounded in the early parts of the game for five runs, yielding in the fifth a pinch batter, Fred Frankhouse finished for the Cardinals, holding the Braves scoreless.

Grever Cleveland Alexander will pitch against the Braves tomorrow in the last game of the series in an effort to set a new National League record for games won, which he now holds jointly with Christy Mathewson at 274. Score:

ST. LOUIS, Aug. 5. (P)—Percy Jones stopped the St. Louis Cardinals' winning streak at five games as he pitched the Boston Braves to a 4-to-0 victory over the Red Birds here today, yielding only three scattered hits.

Joe Haines was pounded in the early parts of the game for five runs, yielding in the fifth a pinch batter, Fred Frankhouse finished for the Cardinals, holding the Braves scoreless.

Grever Cleveland Alexander will pitch against the Braves tomorrow in the last game of the series in an effort to set a new National League record for games won, which he now holds jointly with Christy Mathewson at 274. Score:

PIRATES NOSED OUT BY GIANTS

Pittsburgh Rallies to Score Five Runs But Loses, 11-10

Out Saves New Yorkers With Perfect Throw to Plate

O'Farrell and Terry Pound Out Home Runs

PITTSBURGH, Aug. 5. (P)—A five-run rally in the ninth was not enough for the Pirates today and the New York Giants won the first game of the series, 11-10, in a free-for-all slugfest.

Mel Ott's throw from right field to cut down Clarke at the plate with the tying run saved the Giants in the ninth.

Pittsburgh went into the final inning trailing by six runs, but a six-hit rally drove in Carl Mays from the mound and forced Ott to end the session with his perfect throw after Hartnell drove out his fifth hit.

The Pirates' only home run was by O'Farrell and Terry hit homers for the Giants. Score:

Joe Haines was pounded in the early parts of the game for five runs, yielding in the fifth a pinch batter, Fred Frankhouse finished for the Cardinals, holding the Braves scoreless.

Grever Cleveland Alexander will pitch against the Braves tomorrow in the last game of the series in an effort to set a new National League record for games won, which he now holds jointly with Christy Mathewson at 274. Score:

ST. LOUIS, Aug. 5. (P)—Percy Jones stopped the St. Louis Cardinals' winning streak at five games as he pitched the Boston Braves to a 4-to-0 victory over the Red Birds here today, yielding only three scattered hits.

Joe Haines was pounded in the early parts of the game for five runs, yielding in the fifth a pinch batter, Fred Frankhouse finished for the Cardinals, holding the Braves scoreless.

Herr Max Has One Lawsuit Worry Lifted

NEW YORK, Aug. 5. (P)—Max Schmeling, much troubled German heavyweight, has one less worry today. The suit brought by Frederick Kirsch, fight promoter, against Charlie Ross, one of Schmeling's managers, for 2 per cent of the German's earnings, was dismissed today by Supreme Court Justice Cotillo. Kirsch claimed that he introduced Ross to Arthur Buevol, Schmeling's registered German manager, and as a result was to receive 2 per cent assignment from Ross's percentage of Schmeling's earnings.

DOMAN IN GOOD SHAPE

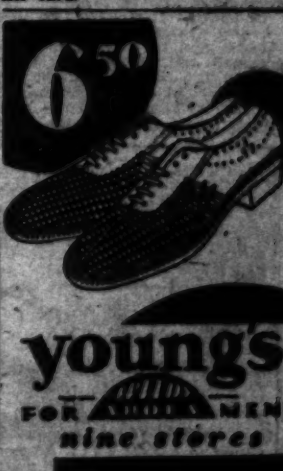

Big Heavyweight Ready for Bout With Stabineau After Being on Shelf for Months

Vijo Doman has his work cut out for him at the Hollywood American Legion Stadium Friday night when he fights Tony Stabineau in the main event. Doman has been on the shelf with a bad hand for several months but his manager Tom O'Grady has him in shape for a tough campaign again.

If Doman can show a winning streak fighters will be brought here from all parts of the country to fight him at Hollywood. Tom O'Grady claims that Max Schmeling has returned to fight Doman. He was rendered a match with Vijo in New York several months ago and when the proposition was being made Joe Jacobs and Billy McCormy were looking out the window.

A semi-wind-up that features two welterweights with a wallop will be one of the supporting fights. Frankie Forbes fights Carmen Tumalino. Forbes is rated a better fighter than Tumalino but the Italian is coming with experience shows better form.

Rhyme Miller, former amateur champion who fought under the colors of the Los Angeles Athletic Club and went to the Olympic Games representing the United States fights Harry Wallinder in the special event. Miller boxes well but lacks the punch that the fight fans go nutty over.

Million Cubic Feet of Gas Will be Required to Waft the Graf Zeppelin back to Germany. The gas was assembled at Lakehurst, N. J., in steel cylinders and stacked ready to be put aboard the big dirigible. All the gas shown in this picture will be utilized by the monster German craft. (A. P. photo.)

Vibrations at the Rate of 7200 a Minute are thrown out by a violet ray, recently developed and which will be exhibited at the National Progressive Chiropractic Association's annual convention opening here Monday. Billie Balche is the lady with the machine. (A. P. photo.)

A Memorial to Mark Twain Was Dedicated at Mono Lake Yesterday on the fiftieth anniversary of the arrival of the famous humorist at Mono Inn where he wrote "Roughing It" and other stories familiar to every American. Don Glavin (left) and Fred Walker, who knew the writer in the gold-rush days, are unveiling the bust. (P. & A. photo.)

Missing for Half Century has been found at New, Mass., by Rev. Richard J. Branton, according to experts who have examined it. It is said to be the Italian masterpiece, missing since Napoleon's army seized the papal state in 1870. (A. P. photo.)

One of California's Noted Beauty Spots, Emerald Bay at Lake Tahoe, is shown above in this unusual photo. The steamer, which daily calls at the principal vacation spots on California's "Lake of the Skies," is pictured in the foreground as it plows its way across the placid body of water. Thousands visit Lake Tahoe annually. (P. & A. photo.)

The African idea of feminine pulchritude is more or less bizarre, judging by the appearance of these belles from the heart of the continent. Their lips have been enlarged through the use of disks until they resemble plates of flesh. These beauties were photographed at a Paris flying field shortly before they took their first hop. (A. P. photo.)

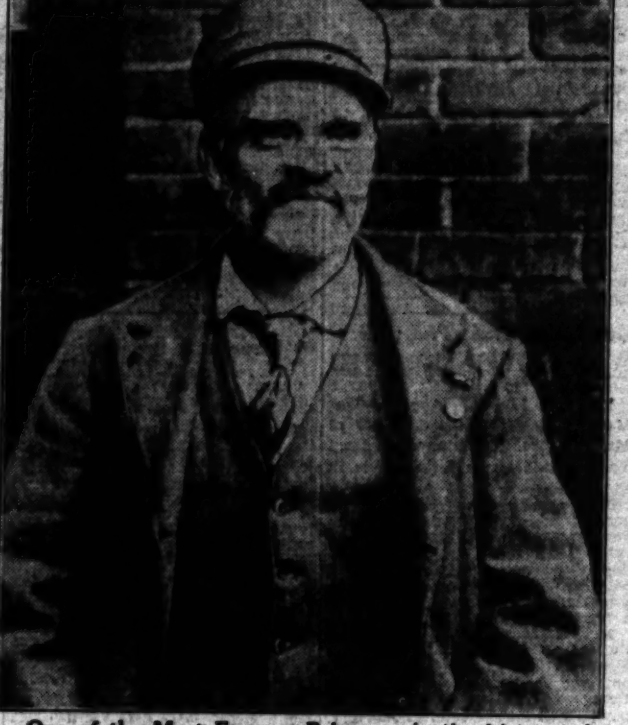

Detachable Collar and cuffs of white linen make this business model of brown and tan worsted particularly attractive to the working girl. (A. P. photo.)

More Than a Score of internationally famous stage and screen stars, including Irene Bordoni, will appear at Hollywood Midsummer Jubilee at the Bowl tomorrow night.

Lady Babe Ruth—Beatrice Schmitt, 20, of Chicago, is credited with being the hardest hitting female player in baseball anywhere in world. (P. & A. photo.)

Thermometer is Skidding Between Ninety and 100 Degrees a picture of a party of climbers on the edge of a glacier in the Bernese Oberland in the Swiss Alps. The picture has little effect on the ice fields of the higher Alps. (Herbert photo.)

One of the Most Famous Prisoners in the history of crime in the United States, Jesse Pomeroy, who has spent fifty-three years of his life behind bars, took his first automobile ride recently when he was transferred from one institution to another. (A. P. photo.)

HIGH LIGHTS OF HISTORY 1412 The Story of the World War 182—Pershing and Clemenceau.

by J. CARROLL MANSFIELD

CLEMENCEAU, PREMIER OF FRANCE AND PRESIDENT OF THE ALLIED SUPREME WAR COUNCIL, WAS OPPOSED TO GENERAL PERSHING'S IDEA OF AN INDEPENDENT AMERICAN ARMY IN FRANCE. CLEMENCEAU HELD THE VIEW THAT THE AMERICAN FORCES COULD BE EMPLOYED MOST EFFECTIVELY AGAINST THE ENEMY IF BROKEN UP INTO SMALL UNITS UNDER FRENCH COMMAND.

IN DECEMBER, 1917, GENERAL PERSHING PROPOSED TO GENERAL PERSHING THAT ONE AMERICAN REGIMENT BE ASSIGNED TO EACH DIVISION OF THE FRENCH ARMY. PERSHING REJECTED THIS PROPOSAL ON THE GROUND THAT THE DIFFERENCE IN LANGUAGE AND TRAINING BETWEEN THE TWO ARMIES WOULD MAKE COMPLETE CO-OPERATION ALMOST IMPOSSIBLE.

CLEMENCEAU, REFUSING TO BE BALKED, FORTHWITH WENT OVER PERSHING'S HEAD, AND COMMUNICATED WITH SECRETARY OF WAR BAKER THROUGH THE FRENCH AMBASSADOR AT WASHINGTON. SECRETARY BAKER DECLINED TO INTERFERE, AND NOTIFIED GENERAL PERSHING THAT THE MATTER WAS LEFT WHOLLY TO HIS DISCRETION.

JANUARY 5, 1918, PERSHING WROTE TO CLEMENCEAU: "MAY I NOT SUGGEST TO YOU, MY DEAR MR. PRESIDENT, THE NECESSITY OF COMMUNICATING SUCH MATTERS TO WASHINGTON BY CABLE? THESE QUESTIONS MUST ALL BE SETTLED HERE, EVENTUALLY, ON THEIR MERITS, THROUGH FRIENDLY COMMERCE BETWEEN GENERAL PERSHING AND MYSELF, AND CABLES OF THIS SORT ARE VERY LIKELY TO CONVEY THE IMPRESSION IN WASHINGTON OF SOME UNDESIRABLE DISSENT BETWEEN US WHICH IS NOT THE CASE."

Mayor Porter on the maiden flight of the Chamber of Commerce. The Mayor (left) is receiving congratulations from W. L. Hailey in this photo.

THIRTEEN IN AUTO WRECK
Building Causes Crash on Rincón
Seven Injured as Car Turns Over on Side
Injured Persons Taken to Ventura Hospital

VENTURA, Aug. 5.—Thirteen persons were injured in a crash of a touring car in the county over the side of a hill, and two of the injured were reported in serious condition. One woman is injured, fatally, and two others were taken to the hospital as the result of an collision which occurred on a curve on the road. One man, who was driving the car, was taken to the hospital as the result of a collision which occurred on a curve on the road. One man, who was driving the car, was taken to the hospital as the result of a collision which occurred on a curve on the road.

City Directors Face Removal From Office
